NEBRASKA EXCITED OVER OIL OUTLOOK

LINCOLN, Neb., Oct. 12.—Nebraska is "all hot up" over the prospects of oil development in the vicinity of Ne-ligh. One well has been sunk to a depth of 500 feet and is producing ten barrels of fair quality crude oil a day. But the petroleum has to be pumped. The oil was found after the drill passed through a thick stratum of shale.

HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

Why rub your youth out over your silver when by putting it in a pan of hot water in which soda and salt are dissolved, it will clean itself? To be sure, the flosser may not be so high as may be secured with polish, but in these days of knowing the values of life, a woman sees the folly of wasting herself on things.

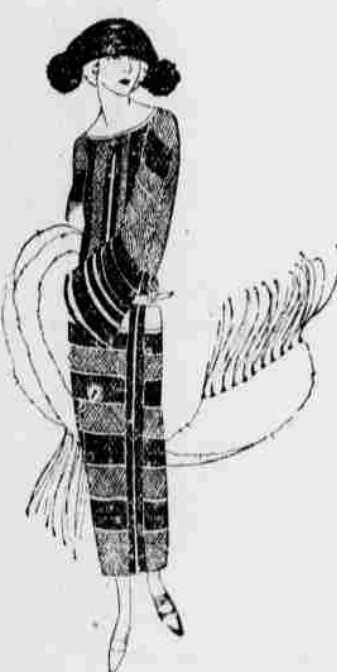

The heat from one burner of gas or oil will cook an entire dinner in the steam cooker—just enough to keep two quarts of water boiling in the lower compartment. Arrange the foods on the racks, light the burner and then leave your dinner to the care of this machine-made chef. No waiting is needed as a whole will promptly inform you if the water gets low. For cooking, this appliance is equal to a satisfactory—V. D.
