Round-Up Is Featured

A page story in the New York Herald, Sunday, October 15, by Walter Trumbull, one of the "Rough Writers" who visited the Pendleton Round-Up this year, features the big show. It is illustrated with pictures taken here. Turnbull, after a most graphic description of the Round-Up, concludes the article as follows: "Unless one wrote books as Furlong and Rollins did, there is no way to describe the Round-Up. The thing to do is to see it. Go West, young man, go West!"

Police Court Quiet.

May File Returns

While the next payment of income taxes is not due until March 15, 1923, returns may be filed after December 31 of this year, according to information given from the internal revenue office today. The early date is set so as to prevent too great an influx of returns during the last days of the time limit.

Deer Hunters Many

Deer hunters in the Ukiah region are very numerous, says R. A. Bottcher, deputy Umatilla forest supervisor who is here today. He states that many bucks have been killed and that hunters are flocking to the mountains in the hope of killing deer before the close of the season the latter part of this month.

Road Crews At Work

Three road crews are now at work in the Umatilla forest and with good weather, one of the crews, at Frazier, in the southern division, will finish construction work. Two other crews, one at Pearson and the other at Tucannon, will not complete the work this year. The former is in the southern division and the latter in the northern.

Customers

The business man should realize that he is separated from his customers — old and new — by minutes, not miles.

In these days of strenuous competition the successful merchant must make the best use of his resources, and there is none more important than his long distance telephone service.

In the transaction of business the use of the long distance telephone will mean the prompt answer, the personal touch and an economy of time.
