### FAIRS AND SHOWS IN WHICH LAND PRODUCTS APPEAR CAUSE INTEREST

'These Potatoes Greater Than Anything You Could Write, Sinnott Tells Road Workers

That fairs and rhows in which products of the soil are the chief attractions are well worth while in somethjug on which producers in Umatilla county are all agreed. The success which attended efforts of different sections of the county this year in their fairs and shows is one of the reasons why more and more attention is being paid to this medium of educa-tion and advertisingk.

The Hermiston Hog and Dairy show this year had the biggest premium list it has ever had with interest in exhibits and competitions keen. The potatoes came in for its share of honor when the Umatilla County Potato show was held for the first time. Weston is the home of this show. which is expected to be an annual af-

The East End Apple show gave over more floor space than ever before to its exhibits and the interest are suffi-cient to cause the management to extend the time from two days, as originally planned, to three days. New departments were added which sharpened interest in the offerings. One of the innovations was a department which old relics and heirlooms were displayed. Some of the garments and household articles on display were 175 years old, and quaint bits of history were unearthed by the stories the owners could tell of their properties.

On Sunday, Congressman N. J. Sin-nott was at Weston to confere with the executive committee of the Blue Mountain Highway association. While there he was shown the exhibits of potatoes and other farm produce. He produce it will follow the farm produce. He will be seen to the product the state of the product its will be seen to the product the state of the product in the product is the product that product the product is the product that product the product the product that product the product the product that product the product that product the product that product the product tha which had been on display during the county show.

"This display of products means more than anything you can write to get on its "Sunday cloth about the possibilities of this country," the world see it at its best." Mr. Sinnott declared, after he had studied the displays,

The remark had a particular value under the circubstances, because the

#### COCKAGE IN WHEAT IS SOURCE OF HEAVY LOSS TO FARMERS, REPORT

Department of Agriculture is Working to Eliminate Waste Now Taken to Market.

Of the 1921 spring wheat crop, approximately 9,500,000 bushels of foreign material such as weed seeds, other grains, and finely cracked wheat were harvested, thrashed, and shipped with the wheat to terminal markets, records of official grain in-

Inspection statistics for 127,976 cartools received at Minnesota inspection points alone during the crop year ending August 31, 1921, show that 121,485 cars, or 94.9 per cent, contained 1 per cent or more of readily sep-arable foreign material, or dockage 39,841 cars, or 31 per cent, contained 10 per cent or more of dockage; 234 cars contained 20 per cent or more; 58 cars contained 30 per cent or more; 26 cars contained 46 per cent or more and 7 cars contained more than 50 per cent of dockage. The growing thrushing, handling

and shipping of this large quantity of dockage which is not paid for but is given away by farmers, represents a tremendous agricultural waste in the opinion of the United States department of agriculture. The sowing of clean seed wheat, proper cultural methods, and cleaning the thrashed grain on the farm before it is hauled 50 TONS OF HONEY ARE edy for this condition. Weed seeds other grains, and finely cracked wheat separated from the wheat on Furrows plowed through fields of fairly good feed for live stock and fall grain, veich and other crops to al-when so substituted for the higher CREGON AGRICULTURAL COL-low surface water to run off will save priced feeds such as catt, corn, and LEGE, Corvallis, Nov. 1.— Few realcommercial mill feeds, says the de-

During the last few seasons, the deing experiments in the field with reach day for several days after filling, be attached and belted to the thrash-ing machine have been developed. ## It's Really Fun

and a Big Saving to Paint, Varnish and Wax Things Yourself

F you knew how easy and interesting it is to varnish or wax home things yourself, you'd not hesitate in brightening up the articles that need refinishing.

Thousands of women have done this work under our guidance. Most of them say, "It's fun."

For 73 years we have been making special paints, varnishes, waxes, enamels, wall finishes and stains of the very highest quality. They assure satisfactory results if you follow a few simple directions.

And our "Home Service Paint Department" was organized just to furnish you with the necessary instructions. Write this department, tell them what you want to refinish and how you want it to

look. Our experts will send you full instructions which you'll have no trouble in following.

Fuller's Free Advice and Fuller's Products will be a wonderful help to you in beautifying your home. Take advantage of them both at once. You'll enjoy the work and the new beauty of the things you refinish will be a worth-while reward.
