"QUEEN OF SHEBA" PROVES GIGANTIC LOVE SPECTACLE

"Queen of Sheba," a William Fox super-special directed by J. Gordon Edwards, came to the Rivoli Theatre yesterday. It created a profound impression upon the first day audiences, and bids fair to prove the most talked-of photodrama of the season.

The pageantry attending the arrival of the Queen of Sheba at the court of King Solomon, which has held its place for centuries in song and story as supremely magnificent, is visualized in the picture drama in a manner completely satisfying to all.

There is scene after scene of great beauty and magnificence in "Queen of Sheba"—the marriage festival at the court of King Armod, the arrival at Solomon's court, the day of races and games, including the chariot race between the Queen of Sheba and the Princess Vashti; the arrival of David, son of Solomon, the little Prince of Sheba; the battle between the forces of Solomon and Adonijah, and the pathetic final departure of the Queen of Sheba for her own realm.

Betty Blythe is a voluptuously royal and beautiful Queen of Sheba, and enacts the exciting role impressively, besides showing great daring and skill in the chariot race; Fritz Lieber, the noted Shakespearean actor, is an effective Solomon; Nell Craig is the Prin-

cess Vashti, George Seligmann is King Armod, and Claire de Lorez is Queen Amarith, wife of Solomon. The chariot races in their thrilling realism came as a distinct surprise, bringing audible expressions of excitement and admiration from the audience.

Manager Matlock of the Rivoli Theatre is to be congratulated upon having secured this wonderful picture for a run in this city.

HOME IS ISOLATED

FRANKFORT, Ky., Dec. 22.—(A. P.)—An offer of Miss Mary Mason Scott of Frankfort, and her brother, John M. Scott of Louisville, to buy the historic home "Liberty Hall," in this city, to the Colonial Dames of Kentucky, has been accepted.

"Liberty Hall" is one of the oldest homes in the east. It was built in 1796 by John Brown, the first United States senator from Kentucky. Plans for the house were drawn by Thomas Jefferson, in whose office Mr. Brown studied law. The grounds and gardens of the old home extend from the house to a considerable frontage on the Kentucky river.

The old Quincy home in Massachusetts was presented to the New England Chapter of the Colonial Dames some years ago.

ST. LOUIS BROWNS HOPE FOR PENNANT

ST. LOUIS, Mo., Dec. 22.—(A. P.)—Confident as a result of their showing in 1922, when they finished in second place only one game behind the New York Yankees, their best performance in 20 years—the St. Louis Browns have high hopes of winning the American League championship next year.

Disappointed but not disheartened over failure to capture the flag after a strenuously close struggle with the Yankees, Phil Pall, owner of the Browns, has spent a sum estimated at between \$100,000 and \$150,000 purchasing new players to strengthen his team for next year's campaign.

Fifteen new players have been purchased and ten have been recalled from minor league teams to which they were "farmed out," so that when Lee Fohl, Brownie chief, assembles his squad for spring training he will find an unusually large number on hand.

Pitcher's Box Weak. The pitching staff, third base and center field, which were considered the weak positions and probably had much to do in the local Americans' inability to finish first last season, are to receive the major portion of Manager Fohl's attention on the spring training trip.

Fohl said he planned to develop another hurler or two to assist his "aces," Urban Shocker, righthander, and Hubert Prout, southpaw. The most likely twirlers to win a regular position on the mound are Danforth, lefthander, who has been recalled from Tulsa of Western league, Henry and Kraft.

Homer Ezzell, purchased from the San Antonio club to fill the far corner and Phil Todd, recalled from Columbus, and Cedric Durst, utility outfielder all are expected to have been competition for their berths.

Fohl evidently will not make any more changes in his team, apparently being satisfied to start the 1923 year with last year's regulars in all other departments.

While declining to make any pre-

WILD DEER HARNESSSED TO GET OUT OF SNOW

QUINCY, Cal., Dec. 22.—Six California mountaineers, caught by an early, heavy snowfall in the high Sierras, captured twelve wild deer, harnesssed them together with ropes and belts, hitched them to an improvised drag and broke a trail back to civilization.

The men were working early in November building a summer camp at Gold Lake, a point far up in the mountains. When a heavy snow storm came up unexpectedly, they found themselves with only a few provisions and without snow shoes or skis. Help could not reach them, they knew, before several days.

Steve Pezola, the leader of the crew, immediately set about making sets of skis for himself and his men, using such lumber as was available. In the meantime the snow continued to fall until more than five feet covered the roads and trails.

On the second night of the storm, a herd of deer, fleeing before the snow, sought refuge in the camp. Grasping the opportunity, Pezola and his companions herded the animals in one of the uncompleted rooms.

The next morning the deer were harnesssed to a drag and the six castles, ways, mounted on home-made skis and hanging to the drag, started off towards civilization. The deer were successfully guided until they had broken a road through the deepest parts of the snow-covered forest and had arrived almost at the edge of the tableland where the road starts down out of the mountains.

There the animals were treated to the last sugar in the men's supplies and were turned loose to return to the forests. A few hours later the men, continuing on foot, met a team and sleigh loaded with supplies, making slow progress up the hills to the camp.

JAP NEWSIES' PAY SMALL.

OSAKA, Japan, Dec. 21.—(A. P.)

—Japanese newspaper men, like their colleagues in other countries, work for small salaries, but efforts are being made by prosperous newspapers in Osaka to elevate the standard.

The Osaka Mainichi, which has a daily circulation of about 300,000, has made substantial increase in its existing scale of salaries. Together with a bonus distributed twice a year, the actual pay is two to three times the specified salary.
