

Proudly Serving Eastern Oregon, Washington & Idaho For 35 Years

Blue Mountain Pathology, Inc.

We are a local laboratory serving local patient needs.

Linda Johnston and Kevin Sargeant, M.D.

Blue Mountain Pathology is a medical laboratory owned and operated by local physicians specializing in providing diagnostic anatomic pathology services throughout Eastern Oregon, Washington and Idaho for more than 30 years. We are excited to be on the cutting edge of technology and utilizing state of the art equipment for:

- **Immunohistochemistry Testing** - Services previously sent for outside consultation are now being performed locally resulting in better turnaround time.
- **SurePath™ Liquid-Based Pap Testing** - providing the highest detection rate for cervical abnormalities on the market today.
- **Focal Point Guided System Slide Profiler** - an FDA approved instrument which pre-screens pap smears prior to our manual review process. This technique improves performance in routine pap smear screening by providing an additional level of confidence for women.

Blue Mountain Pathology is committed to excellent customer service with accurate dependable results to positively enhance your patient care.
