ARIES (March 21-April 19). When you realize that it would be good to control your thoughts, it's a realization that signals a very high level of human evolution. So don't be too hard on yourself if you aren't able to follow through with it to your satisfaction.

TAURUS (April 20-May 20). Now that Venus is in your sign, you may find yourself asking more often, "What's in it for me?" And though it's a natural question that you'd be a fool not to ask, just be sure to follow it up with, "What's in it for them?"

GEMINI (May 21-June 21). The moon in your sign has you feeling lucky, taking social risks and playing it loose. That's what makes you so fun to be around. People don't know what to expect.

CANCER (June 22-July 22). There's an emotional volume to hit -- a sweet spot that will resonate with your audience. It's why you don't feel the need to have strong opinions about everything.

LEO (July 23-Aug. 22). Avoid trying to make a specific outcome happen, because everyone involved in today's scenario wants something different. Instead, be open to the natural compromise that is likely to occur with such varied input.

VIRGO (Aug. 23-Sept. 22). There are benefits to being an unofficial member of a group. Once they have accepted you as their own, they also trust you not to leave. So think twice before you endeavor to join.

LIBRA (Sept. 23-Oct. 23). People generally become security-oriented because of experiences of insecurity they do not wish to repeat. With these types, trust can only be built with consistency over time.

SCORPIO (Oct. 24-Nov. 21). Obsession is rarely a positive state of mind, because the amount of focus that even a healthy obsession requires usually creates an imbalance. But at least obsession helps you figure out what you lack so you can actively pursue it.

SAGITTARIUS (Nov. 22-Dec. 21). You're usually in the mood to discover the far corners of the world; however, now you're more in the mood to discover the far corners of your couch. You need the rest!

CAPRICORN (Dec. 22-Jan. 19). The friendships that keep you entertained are worth more than gold. Your favorite people will make no effort to please you. It just happens naturally when they please themselves.

AQUARIUS (Jan. 20-Feb. 18). While familiarity doesn't always breed contempt, it may breed blindness to the glory of all that you are. It will take an outsider to shake things up by noticing your wonderful qualities.

PISCES (Feb. 19-March 20). You're a very important person and should be cared for as such. So stop putting off the appointments that keep you feeling attractive, healthy and tended to.

TODAY'S BIRTHDAY (March 24). You know what you're working toward, and you'll be tenacious. You will become increasingly financially secure, and this stability translates into greater confidence in your personal life. April and May are for taking social risks, making new friends and learning the nuances of a fascinating culture. June cements a deal. Hopefully, you won't mind the worship and adoration coming your way in August. Leo and Sagittarius people adore you. Your lucky numbers are: 30, 5, 14, 33 and 12.
