ARIES (March 21-April 19). Superstitions may not be scientific, but they are an integral part of your experience, and something about them fits the way your mind works. Connections can be precarious. If you believe it, you'll see it. If you don't, you won't.

TAURUS (April 20-May 20). A lot of serious developments come out of silly things. So don't be afraid to be a bit silly. Also, anyone who brings out this side of you is bringing out something essential and good.

GEMINI (May 21-June 21). Some say there is no cure for curiosity. You almost wish there were some kind of exciting distraction to divert your attention from the thing that captivates you against your will.

CANCER (June 22-July 22). You were at least partially formed in the small struggles of youth. They prepared you for the bigger challenges. Alas, it's not time for that. This is the period of smooth sailing.

LEO (July 23-Aug. 22). You've already chosen the task. Now all you want are powers that are equal to or greater than it. You will get what you want in time. Today's exercise will help.

VIRGO (Aug. 23-Sept. 22). Untrustworthy people will say whatever they think will get them out of a bad situation or into a desired one. Trustworthy people will say what is, and they also will live it.

LIBRA (Sept. 23-Oct. 23). Maybe you're emotionally fragile now, so it's good to have people around you who agree with you. Otherwise, you prefer opposition. It is, after all, much more useful. It's how you become great at what you do.

SCORPIO (Oct. 24-Nov. 21). Relationships are important. Material possessions remind you of relationships, and that's why you find them so important. Without meaning, this property has no value to you.

SAGITTARIUS (Nov. 22-Dec. 21). Every day you wake up to a new day. But you're not always as excited about the possibilities as you are on this day. You are practically vibrating with potential.

CAPRICORN (Dec. 22-Jan. 19). Lately you've been questioning your lifestyle. Do the things around you really add value to your life, or are they just taking up space? It turns out you need a lot less than you think you do.

AQUARIUS (Jan. 20-Feb. 18). Some of your favorite people are those who know how to temper your dreams with a healthy dose of reality. It's the earth signs who help you keep realistic expectations when your eyes are bigger than your budget.

PISCES (Feb. 19-March 20). Sometimes the bad ideas go undetected for a while, and you wind up putting a fair amount of work into them before you realize the problem. Once you realize it, though, stop immediately. Don't throw good efforts after a bad idea.

TODAY'S BIRTHDAY (July 14). You are beautiful, not because of one isolated feature or fact, but because everything about you is working together to make a joyful impact on the world. Your environment will reflect new values and aesthetics. The person you used to worry about and help will grow strong and help you back. New business comes in October. Pisces and Virgo people adore you. Your lucky numbers are: 1, 34, 3, 22 and 38.
