EO-7785
PUBLIC NOTICE
Wheatridge Wind Energy Facility
Information Meeting on the Complete Application for Site Certificate

Introduction
 The Oregon Department of Energy (department), staff of the Energy Facility Siting Council (EFSC or Council), received an application for site certificate (ASC) from Wheatridge Wind Energy, LLC (applicant), for the construction and operation of the Wheatridge Wind Energy Facility (proposed facility), a wind generation facility with a nominal generating capacity of 500 megawatts. Under Oregon law, the applicant must obtain a site certificate from EFSC before constructing and operating the proposed facility. The department determined the ASC complete on July 1, 2015 and the applicant submitted and filed a final ASC on July 13, 2015.

Public Information Meeting
 The department will hold a public information meeting on August 11, 2015 to provide the public with more information about the proposed Wheatridge Wind Energy Facility application and the site certificate review process.

Date: August 11, 2015
Time: 6:30 p.m.
Location: Boardman City Hall Council Chambers 200 City Center Circle Boardman, OR 97818

The information meeting is *not* a public hearing. Department staff and the applicant will be available to answer questions after the presentation, but public testimony will not be taken at this point in the process. As described below, EFSC will hold a public hearing after the department issues a draft proposed order on the ASC.

Location of Proposed Facility
 The proposed Wheatridge Wind Energy Facility would be located in Morrow and Umatilla counties. For detailed maps, please see the department website at the link below or Exhibit B of the Application for Site Certificate.

Description of the Proposed Facility
 The proposed facility would consist of up to 292 turbines divided into two groups: Wheatridge West and Wheatridge East; and an interconnection corridor containing up to two parallel overhead 230-kilovolt (kV) transmission lines connecting Wheatridge West and Wheatridge East. In addition, the proposed facility includes the following related and supporting facilities:

- * 34.5-kV collector lines and substations
- * Meteorological tower
- * Communication and SCADA System
- * Operations and maintenance buildings
- * Access roads
- * Temporary construction areas
- * Temporary concrete batch plants

EFSC Review Process
 The site certificate process is a consolidated, comprehensive siting process. The applicant must demonstrate that the proposed facility meets EFSC standards established under Oregon Revised Statute 469.501 and set forth in OAR Chapter 345, divisions 22 and 24, as well as all other applicable Oregon statutes, rules and standards. The department serves as staff to EFSC and conducts the ASC review process.

Upcoming Review Phases
 The department determined the ASC complete on July 1, 2015 and is currently preparing the draft proposed order (DPO) which will include staff's analysis of the ASC, based on the department's review of the ASC as well as comments received from state agencies, tribes, local governments and others identified as "reviewing agencies" under EFSC rules and statutes. Based on staff's analysis of the ASC, the DPO will include a recommendation of approval or denial of the site certificate to EFSC. If staff recommends approval, the DPO will include recommended condition language. Following issuance of the DPO, the department will open a public comment period, which will include a public hearing. You must provide written comment during the public comment period, or oral or written testimony on the record of the public hearing, to preserve your right to participate in the contested case proceeding and subsequent appeals of EFSC's decision. The department anticipates issuing the DPO during the 1st quarter of 2016. The department will issue notice of the public hearing and comment period when it issues the DPO.

More Information
 More information about the proposed facility and the EFSC review process is available through the department's siting analyst for the proposed Wheatridge Wind Energy Facility:
 Sarah Esterson
 Energy Facility Siting Analyst
 625 Marion Street NE
 Salem, OR 97301
 503-373-0076
WRW.Comments@state.or.us
