 MISS RUDY CHOCK

Notes: Chewy is a big 16h AQHA stallion. Golden buckskin/dun with Black Points. Been 5 panel tested at Animal genetics, is negative on all 5. Both testicles are present. He is bred by a multiple World Champion breeder, has many greats in his pedigree. He is bred to be versatile, his foals have proven it. They have done well in the arena, on the ranch and have made nice big talented rope horses too. He is good with other horses and he has been corralled next to other stallions. Broke to ride but its been a long time since he has been ridden. With his gentle

disposition I don't think he would be a problem to get going again. He would be fine for 1st time stallion. Stall #18.
