Notes: Buck is a big stout gelding, has been used on rocky mountain trails to gather cows. He has ran barrels in the past and would be great at it with a little practice. He is fast and has a great personality. He does need a confident rider as he can be high energy. Stall #17.

Notes: Vegas is a 15 hand 1100 lb solid usable golden palomino gelding. We have used him for the last couple years trail riding and moving our cattle and horses to neighboring pastures. Saddles, ties, loads and rides great. Current on dental and hoof care, vaccines and dewormings. This guy was started late and has not been used and abused like a lot of geldings his age. Best suited to intermediate or above rider. Will go where you point him and spent a lot of time in the hills. Solid and sound. If you would like more information and pictures, feel free to

give us a call at 208-703-2614. Stall #9.

**SPOT**

GRADE \* YEAR 2000 \* GRAY SPOTTED MALE MULE

Notes: Spot is a 16 hh Appalossa John Mule. He rides and packs. He is more suitable for an intermediate to advanced rider. Anyone can pack him. He will follow all day long and has the stamina to keep up. Can put him in a string or alone. He is great with his feet and will stand quietly for the farrier. He will stand tied and will stand still and quiet while tacking and mounting. He has packed supplies and meat (elk, deer and wild boar). He gets along well with other animals. Stall #1.
