Bumblebees studied for U.S. protection; found coast to coast

DENVER (AP) — Two species of bumblebees found from Alaska to North Carolina and in Canada are under consideration for protection under the U.S. Endangered Species Act.

The U.S. Fish and Wildlife Service said Tuesday it will study Western bumblebees and yellow-banded bumblebees to see if they warrant protection.

Defenders of Wildlife, which asked the service to consider protecting the bees, says they are important pollinators of both native plants and commercial crops. The group says the bees are under threat from pesticides and a parasite.

The group says the parasite is a fungus that spread from commercially raised bees brought into the United States from Europe to pollinate in greenhouses.

The environmental group says the bees are in decline on the coasts and in river valleys where commercial farming is widespread.

Senior IS commander dies of wounds from U.S. strike in Syria

BAGHDAD (AP) — Omar al-Shishani, a top Islamic State commander who was a magnet for fighters from the former Soviet Union, has died of wounds suffered in a U.S. airstrike in Syria, a senior Iraqi intelligence official and the head of a Syrian activist group said Tuesday.

Al-Shishani, who was wounded in a U.S. airstrike earlier this month, died on Monday evening outside the Islamic State group's main stronghold of Raqqa in Syria, the two told The Associated Press. A U.S. military spokesman confirmed the reports.

The IS-affiliated Aamaq news agency cited an unnamed source as denying that al-Shishani was wounded or killed, without providing any evidence that he was still alive.

The red-bearded al-Shishani, who was in his 30s, was one of the most prominent IS commanders, appearing in several online videos leading fighters into battle. He served as the top commander in Syria before being appointed to lead three elite units that carried out special missions in Syria and Iraq, according to Hisham al-Hashimi, an Iraqi scholar who closely follows the group.

Al-Shishani, whose real name was Tarkhan Batirashvili, was born in the Pankisi Valley, a predominantly ethnic Chechen region within the former Soviet republic of Georgia.

He did military service in the Georgian army but was discharged after an unspecified illness, a former neighbor told The Associated Press in 2014. Georgian police later arrested him for illegal possession of arms, the neighbor said. Upon his release in 2010, Batirashvili left for Turkey.

He first surfaced in Syria in 2013 with his nom de guerre, which means "Omar the Chechen" in Arabic, leading an al-Qaida-inspired group called "The Army of Emigrants and Partisans," which included a large number of fighters from the former Soviet Union.

Some 1,500 battle-hardened fighters from the Caucasus region joined IS because of al-Shishani, al-Hashimi said.

Obama abolishes last major restrictions on U.S. travel to Cuba

WASHINGTON (AP) — President Barack Obama sent an unmistakable message to Americans on Tuesday ahead of his historic trip to Havana: Cuba is open for business.

Punching fresh holes in the generations-old U.S. embargo, Obama's administration removed the last meaningful restrictions on travel, putting a Cuba vacation within reach for millions of Americans over the coming years. The sweeping changes also clear a path for Cuban athletes to one day play Major League Baseball and other professional sports.

Although tourism is still technically off-limits, the ban becomes essentially unenforceable, with Americans permitted to travel on their own with no prior permission. White House officials said there would be "no shortage" of opportunities for Americans to fill the loosely defined requirement that they engage with locals in a bid to further U.S.-Cuban understanding.

"The travel ban is on life support here, because for all intents and purposes, anybody can go," Sen. Jeff Flake, an Arizona Republican who supports Obama's approach, said in an interview. "All these barriers are coming down."

The White House announced the package of changes five days before Obama will embark on the first presidential trip to the communist country in nearly 90 years. The more lenient rules, like the trip itself, aim to further the rapprochement that Obama and Cuban President Raul Castro began more than two years ago.

Among the changes unveiled Tuesday:

• The U.S. eliminated a ban on Cuban access to the international banking system

• Cuba announced that the first direct mail in a half-century would fly from the U.S. to Cuba starting Wednesday

• Cuban citizens can start to earn salaries in the U.S. in most circumstances without immigrating

• Cuban citizens can open U.S. bank accounts and use them to send remittances back home.
