HOROSCOPES

By Holiday

SATURDAY, MAY 14, 2016

ARIES (March 21-April 19). Meditation lends spiritual lift and a vantage point from which you can recognize the totality of your life patterns – some have served you well, and others have brought you needless pain.

TAURUS (April 20-May 20). Today's impeccable timing is dependent upon something as unpredictable as another person's actions. What happens is truly remarkable in its clockwork precision.

GEMINI (May 21-June 21). Of course you're not so callow that you rely on another person to make you feel attractive. Neither are you impervious to compliments and special attention. It's nice, and you deserve it! If it's not forthcoming, it's time to ask why.

CANCER (June 22-July 22). You shouldn't have to solve problems in order to earn the attention and affection of your loved ones, but you'll probably solve them anyway. Helping is your nature.

LEO (July 23-Aug. 22). One of your greatest joys in life is in making things. Anyone who can help by giving you the space and/or resources to build what's in your mind will automatically become your favorite person.

VIRGO (Aug. 23-Sept. 22). Excuses that were legit in an age without Internet and Google just don't fly anymore. Just about everything you need to learn is readily accessible, and you'll take advantage of that today.

LIBRA (Sept. 23-Oct. 23). Your mind is powerful and restless these days, so you need to give it lots to do. Run it or it will run you. Think about what you want your experience to be, not what you fear.

SCORPIO (Oct. 24-Nov. 21). Strangers notice that special charisma in you that your nearest and dearest may have become blind to, due to overexposure. It is only when you return after being gone for a spell that they'll be able to see it again.

SAGITTARIUS (Nov. 22-Dec. 21). Are you forgetting something? Possibly it's a birthday, bill or casually made social hookup. Whatever the misstep, correct it before sundown to minimize damages.

CAPRICORN (Dec. 22-Jan. 19). It's a bad time to take a break. There's so much vivacious momentum going right now it would be a shame to back off. See your work through, and carry relationships on to the next level.

AQUARIUS (Jan. 20-Feb. 18). You can trust the information that comes to you through subconscious channels, even when it doesn't logically coincide with the official story or anything else people are trying to get you to believe.

PISCES (Feb. 19-March 20). You are the priority to another person, and you don't take the role lightly. It comes with responsibilities, including the onus to reciprocate, seizing every opportunity to make that person feel important.

TODAY'S BIRTHDAY (May 14). The butterflies return to your stomach in June, a sign that you're on to something you were meant to explore. Take it to the next level in July. A class will be involved. Your family will entertain you and make you proud in August. You'll never be sorry for what you do that's above and beyond the call in October. Gemini and Leo adore you. Your lucky numbers are: 19, 32, 3, 38 and 5.
