

Hermiston ONLINE!

A PREMIER PUBLIC ONLINE LEARNING EXPERIENCE

Hermiston Online is an excellent program that satisfactorily equips aspiring students to acquire knowledge. My personal experience with taking the opportunity to use Hermiston Online courses has been incredible. I am fond of the format and structure that this online course allows for students to experience. Although the entire program is fantastic, I specifically favor the additional options and resources it provides. I primarily appreciate it providing easy-access, efficient feedback from helpful teachers, and it being flexible to my schedule. These three factors greatly represent this program and establish success for all participants. -Vanessa Ambriz-Mendoza
