ARIES (March 21-April 19). Some of the most influential people of your life aren't the type to readily give advice. They just live exemary lives, certain aspects of which you would love to emulate and today, you will.

TAURUS (April 20-May 20). Smart people seek wisdom, and wise people seek intelligence. Certainly there will be plentiful examples of one without the other today, but not from (well-rounded and oerate) you

GEMINI (May 21-June 21). You've been there. You've been the source of the long sigh followed by "If only." But now you're too busy making things happen for yourself for such sighing. You need to be around people who are the same way.

CANCER (June 22-July 22). "Vain is the word of a philosophe CANCEH (June 22-July 22). Valit is the word of a primosophic which does not heal any suffering of man." There's lots of advice jout there today, mostly unhelpful, much of it impractical. It only dds to the beauty of a good ol' to-do list.

LEO (July 23-Aug. 22). Though it's sometimes fun to touch on mys-tical topics, what matters today more than who you were in a past life or how to interpret someone's aura is who you are being nov nd how that's working with the other person's need of you.

/IRGO (Aug. 23-Sept. 22). No one knows why, but even hungry estock sometimes need to be prodded to the pasture. One neve nows what might be distracting another person. Kindness is called

LIBRA (Sept. 23-Oct. 23). The person with the least need of a situation has the most cheerful, relaxed attitude toward it. From thi nood, a person can see and attract more opportunity. Today pro vides one more example of the benefits of detachment

SCORPIO (Oct. 24-Nov. 21). There is but one way to draw straight line between two points. But if the line is crooked it can fol-low an infinite number of different paths. Do what's right. Go directy. Get there the easy, simple way

SAGITTARIUS (Nov. 22-Dec. 21). All things turn into fire in the end -- otherwise known as "the beginning," because fire is also the birthmother of all things. Wherever you are in your creative ocess, it's a good and necessary part of the cycle

CAPRICORN (Dec. 22-Jan. 19). There should be a name for the particular type of anxiety that accompanies technical difficulties Software errors, password fails, Wi-Fi issues... quickly let it go You'll come up with astoundingly creative solutions.

AQUARIUS (Jan. 20-Feb. 18). Don't let work take an outsized role on your sense of self. You're not defined by your work any more than you're defined by what you own, who you know, or any other single element of your life.

PISCES (Feb. 19-March 20). Maybe it's impossible to tame that ocean of feeling inside you, but you'll be incredibly powerful wher moments of calm do come over you. Through self-possessed atient politeness you'll get exactly what you want.

TODAY'S BIRTHDAY (Nov. 23). Your appreciation for what you already have leads to augmented fortunes this solar return. You treat others with such tenderness through 2017 that relationships will develop an unparalleled depth of feeling. There's a profession al advancement in February. A financial upswing begins in May and keeps building. Libra and Pisces adore you. Your lucky numbers are: 4, 19, 33, 24 and 15.
