

PUBLIC SAFETY LOG

WEDNESDAY

12:18 a.m. - The Umatilla County Sheriff's Office received a request for assistance from a woman who was attempting to help her brother-in-law get his vehicle out of the snow near Ross Road and Jordan Circle Lane, Meacham, and was now stuck herself about 150 yards south of his vehicle.

12:49 a.m. - Icy conditions at Pilot Travel Center, 2115 S. Highway 395, Stanfield, led to a minor fender-bender between semi trucks at the commercial fuel island. A second semi-to-semi accident occurred three minutes later in the same vicinity.

7:38 a.m. - A resident of Southridge Apartments, 1330 Fifth St., Umatilla, reported his uncle's car was stolen sometime during the night. Umatilla police are investigating.

10:04 a.m. - Hermiston police responded to Dutch Brothers, 660 N. First St., Hermiston, after a caller reported a man was lying in the middle of the road, stopping traffic, and trying to open the caller's trunk. Hermiston police lodged the man at the Umatilla Couty Jail, Pendleton, on misdemeanor disorderly conduct and resisting arrest charges.

10:54 a.m. - A passenger car traveling eastbound on Interstate 84 near milepost 220 lost traction on some ice, spun and crashed into a rock wall. An hour and a half later, at 12:33 p.m., a Freightliner semi driver lost control of his rig in the same icy spot and jack-knifed his truck, sliding into the same rock wall. Both vehicles were towed, but no injuries were reported in either crash.

12:06 p.m. - An employee at Tom Denchel Ford, 555 S. Highway 395, Hermiston, reported the back window was broken out of a car on the lot and another was keyed sometime during the night.

12:07 p.m. - The Oregon State Police East Region Explosives Unit were called to a residence on Lena Street, Stanfield, after a maintenance crew found a possible explosive device in the home, a foreclosure, after tenants were evicted. The device consisted of six 10-minute road flares and an older flip-style cellphone taped together with electrical tape. The device also had black, white and green residential-type wires attached to it. The device was released to the Umatilla County Sheriff's Office for forensic follow-up.

12:18 p.m. - Umatilla police were called after an alleged drunk driver almost hit a pedestrian on Umatilla River Road and Bonney Lane, Umatilla.

1:17 p.m. - A Pendleton resident in the vicinity of Southeast Ninth Street and Byers Avenue called Pendleton police to report a man walking up and down the street and telling residents he is employed with Direct TV. The caller said if no one answers the door, the man takes a photo of the residence, and thought this was suspicious. A second caller on Northeast Nelson Drive said two men claiming to work for DISH Network asked "all kinds of weird questions" and wanted to enter the house to look at their devices. When the caller told them he was at home all the time, they excused themselves. And a third caller on Northwest Johns Place reported a similar situation. None of the teams of men had a vehicle. Police were unable to locate the suspicious subjects in any of the locations.

2:17 p.m. - Hermiston police were notified of a possible cougar sighting at Oxbow Trail No. 1, Southwest 23rd Street and West Orchard Extension.

3:38 p.m. - An employee of Keystone RV, N.W. McKennon Road, Pendleton, was choked by another employee at the plant. An HR representative took the injured man to St. Anthony Hospital's emergency room and requested a Pendleton officer meet them there.

4:04 p.m. - Two men claiming to work for DISH Network entered a home on Highway 395 South, Pendleton, without the homeowner's consent and were checking out the video and audio equipment. The caller said the men came to the door and, when his wife said she wasn't interested, entered the home anyway (they did not push her). He was not at the home but wanted a Umatilla County sheriff's deputy to contact him.

4:15 p.m. - A .32 automatic pistol and clip were reported stolen from a vehicle parked at Shari's Restaurant, 319 S.E. Nye Ave., Pendleton.

5:10 p.m. - A gas generator and water pump were reported stolen from a pasture behind a home on Sand Hollow Road and Highway 334, Adams. The caller said the thieves left behind garbage, including receipts, and requested contact from a Umatilla County sheriff's deputy.

6:40 p.m. - Three juveniles who broke into Hermiston High School, 600 S. First St., filmed the illegal entry and a parent sent the video to the district director of operations, who called Hermiston police. Officers, however, were unable to locate the juveniles.

8:06 p.m. - Two vehicles in the parking lot of the Oasis Restaurant, Highway 339, Milton-Freewater, threatened a man with a gun, the man reported to the Umatilla County Sheriff's Office. The caller said the pistol was seen, but it was not pointed at him. Sheriff's deputies were unable to locate the vehicles involved.

10:11 p.m. - A man found lying on the shoulder of I-84 eastbound near milepost 209 was taken to St. Anthony Hospital for medical attention by Oregon State Police. The officer later learned the man had two outstanding Umatilla County warrants, and arrested him on his release from the hospital. He was lodged at the Umatilla County Jail, Pendleton.

Astronaut John Glenn dies at age 95

By SETH BORENSTEIN
AP Science Writer

WASHINGTON — John Glenn, whose 1962 flight as the first U.S. astronaut to orbit the Earth made him an all-American hero and propelled him to a long career in the U.S. Senate, died Thursday. The last survivor of the original Mercury 7 astronauts was 95.

Glenn died at the James Cancer Hospital in Columbus, Ohio, where he was hospitalized for more than a week, said Hank Wilson, communications director for the John Glenn School of Public Affairs.

John Herschel Glenn Jr. had two major career paths that often intersected: flying and politics, and he soared in both of them.

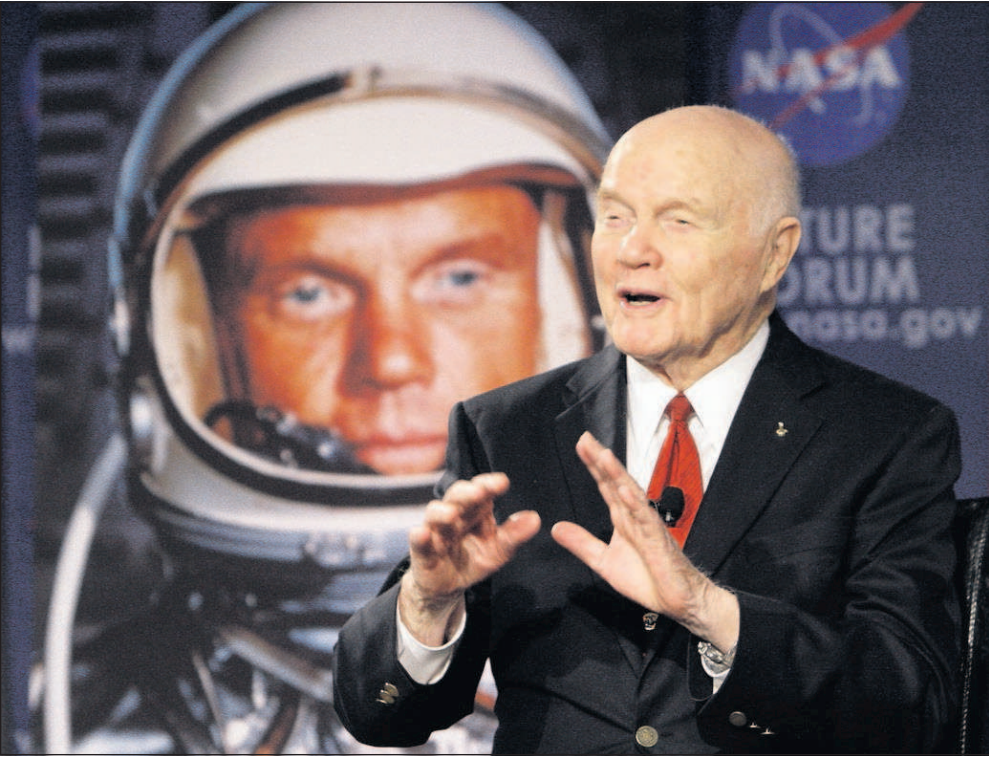

Before he gained fame orbiting the world, he was a fighter pilot in two wars, and as a test pilot, he set a transcontinental speed record. He later served 24 years in the Senate from Ohio. A rare setback was a failed 1984 run for the Democratic presidential nomination.

His long political career enabled him to return to space in the shuttle Discovery at age 77 in 1998, a cosmic victory lap that he relished and turned into a teachable moment about growing old. He holds the record for the oldest person in space.

More than anything, Glenn was the ultimate and uniquely American space hero: a combat veteran with an easy smile, a strong marriage of 70 years and nerves of steel. Schools, a space center and the Columbus airport were named after him. So were children.

The Soviet Union leaped ahead in space exploration by putting the Sputnik 1 satellite in orbit in 1957, and then launched the first man in space, cosmonaut Yuri Gagarin, in a 108-minute orbital flight on April 12, 1961. After two suborbital flights by Alan Shepard Jr. and Gus Grissom, it was up to Glenn to be the first American to orbit the Earth.

"Godspeed, John Glenn," fellow astronaut Scott Carpenter radioed just before Glenn thundered off a Cape Canaveral launch pad, now a National Historic Landmark, to a place America had never been. At the time of that Feb. 20, 1962, flight, Glenn was 40

In this 2012 file photo, U.S. Sen. John Glenn talks with astronauts on the International Space Station via satellite before a discussion titled "Learning from the Past to Innovate for the Future" in Columbus, Ohio. years old.

During the four-hour, 55-minute flight, Glenn uttered a phrase that he would repeat frequently throughout life: "Zero G, and I feel fine."

"It still seems so vivid to me," Glenn said in a 2012 interview with The Associated Press on the 50th anniversary of the flight. "I still can sort of pseudo feel some of those same sensations I had back in those days during launch and all."

Glenn's ride in the cramped Friendship 7 capsule had its scary moments. Sensors showed his heat shield was loose after three orbits, and Mission Control worried he might burn up during re-entry when temperatures reached 3,000 degrees. But the heat shield held.

Glenn was born July 18, 1921, in Cambridge, Ohio, and grew up in New Concord, Ohio. His love of flight was lifelong; John Glenn Sr. spoke of the many summer evenings he arrived home to find his son running around the yard with outstretched arms, pretending he was piloting a plane.

Glenn's goal of becoming a commercial pilot was changed by World War II. He left Muskingum College to join the Naval Air Corps and soon after, the Marines.

He became a successful fighter pilot who ran 59 hazardous missions, often as a volunteer or as the requested

Donovan Lee Shroyer

Athena
March 31, 1945-Dec. 6, 2016

Donovan Lee Shroyer, 71, of Athena died Tuesday, Dec. 6, 2016, at his home. He was born March 31, 1945. Munselle-Rhodes Funeral Home in Milton-Freewater is in charge of arrangements.

A war later, in Korea, he earned the nickname "MiG-Mad Marine."

Glenn's public life began when he broke the transcontinental airspeed record, bursting from Los Angeles to New York City in three hours, 23 minutes and eight seconds. With his Crusader averaging 725 mph, the 1957 flight proved the jet could endure stress when pushed to maximum speeds over long distances.

In New York, he got a hero's welcome — his first tickertape parade. He got another after his flight on Friendship 7.

He first ran for the U.S. Senate in 1964 but left the race when he suffered a concussion after slipping in the bathroom and hitting his head on the tub. He tried again in 1970 but was defeated in the primary.

For the next four years, Glenn devoted his attention to business and investments that made him a multimillionaire. In 1974, Glenn ran for the Senate again and won.

Glenn represented Ohio in the Senate longer than any other senator in the state's

history. He became an expert on nuclear weaponry and was the Senate's most dogged advocate of nonproliferation. He was the leading supporter of the B-1 bomber when many in Congress doubted the need for it.

Glenn returned to space in a long-awaited second flight in 1998 aboard the space shuttle Discovery. He got to move around aboard the shuttle for far longer — nine days, compared with just under five hours in 1962 — as well as sleep and experiment with bubbles in weightlessness.

In 1943, Glenn married his childhood sweetheart, Anna Margaret Castor. They had two children, Carolyn and John David.
