NORTHWEST

House convenes, disagrees over committee appointments

By CLAIRE WITHYCOMBE Capital Bureau

SALEM — In the year's first meeting of the Oregon House of Representatives Monday, members of both parties acknowledged the legislative session's imminent hurdles and called for communication across party lines, despite a disagreement over Oregon House rules regarding committee assignments.

The 60 members of the house, including 14 new state representatives, took the oath of office Monday morning. They reconvened in the afternoon to review nearly 800 bills.

Kotek, Rep. Tina D-Portland, voted Speaker of the House for a third time, acknowledged the "enormity" of the Legislature's tasks in the upcoming session, which formally kicks off Feb. 1.

Several high-stakes issues are looming, including a \$1.8 billion budget shortfall, a \$22 billion unfunded liability in the state's public employee retirement system, low graduation rates and a tough rental housing market.

Kotek encouraged her colleagues to listen to one another and to their constituents, especially to those with perspectives different from their own; and to "engage in robust, constructive debate.'

Knute Buehler, Rep. R-Bend, nominated House Minority Leader Mike McLane, R-Powell Butte, for Speaker of the House. McLane lost to Kotek by 10 votes.

Buehler criticized the of the previous "tone" legislative session in his nomination remarks and said the Legislature faced challenges requiring leadership, including the unfunded liability of the state's retirement system for public employees, "a revenue system which is just not getting the job done," and a lack of affordable housing.

He also criticized the discontinuation of the House Committee on Rural Communities, Land Use and Water, of which McLane was a member.

Speaker Pro Tempore Paul Holvey, D-Eugene, later said the committee was the creation of House Democrats and was not in place when he entered the Legislature in 2004.

Legislators chose Holvey, replaces now-State who

teaching English as second language

Treasurer Tobias Read, over Oregon Rep. Andy Olson, R-Albany, as Speaker Pro Tempore.

Cliff Rep. Bentz, R-Ontario, also called for bipartisanship in remarks in support of Olson, saying working across party lines was the answer to roadblocks such as the PERS "debacle," affordable housing and environmental issues.

"All these things, the magic that will get us there, bipartisanship," is Bentz said.

Rep. Carl Wilson, R-Grants Pass, objected to the adoption of Oregon House rules, in particular the role of the speaker in making committee assignments.

The speaker appoints both majority and minority party members to committees. The speaker is required to appoint the same proportion of majority to minority members to committees as are in the Oregon House as a whole.

Legislative committees review legislation in specific policy areas. The dispute followed some hubbub in late December over the removal of Buehler from the House Committee on Human Services and Housing.

BRIEFLY Head-on crash as police chase kidnap suspect; two killed

ONTARIO - A woman reported kidnapped Monday from an Eastern Oregon convenience store and then found dead minutes later after a head-on crash during a police chase might also have been stabbed, authorities say.

It's not clear yet what caused the woman's death — the attack or the crash but police are now investigating it as a homicide, said Ontario chief Cal Kunz.

Criminal charges are pending against Anthony Montwheeler of Nampa, Idaho, said Malheur County District Attorney David Goldthorpe. He will present the case to a grand jury, he said.

Ontario police received a 9-1-1 call around 5:50 a.m. that reported the woman being stabbed by a man outside the JNJ corner store and gas station, Goldthorpe said. They both got into a 2014 Dodge Ram pickup and fled as Ontario police officers were arriving.

Montwheeler apparently knew the woman, but authorities wouldn't reveal how they were connected.

The pickup drove through the town, got onto Oregon 201, sped into oncoming traffic near Southwest 18th Avenue and collided head-on with a 2001 Ford Excursion, Goldthorpe said.

The woman in the pickup and the driver of the SUV died at the scene, he said. Montwheeler and a passenger in the SUV also suffered serious injuries and are being treated at a hospital in the area. Police didn't release the others' names.

Movtwheeler is a former co-owner of an Idaho-based scrap-metal company and was convicted in 2012 of first-degree aggravated theft in Grant County Circuit Court for underpaying an elderly couple by about \$10,000 for scrap metal. He was sentenced to two years in prison. His wife, Anita Harmon-Montwheeler, was convicted of the same charge and was sentenced to 16 months in prison, court records show.

The woman's car was found abandoned in Weiser, Idaho, about 20 miles north of Ontario, Kunz said. The car was in the middle of the street blocking traffic. — The Oregonian

Central Oregon forecast could increase avalanche risk

BEND (AP) - The Central Oregon Avalanche Association is warning that warmer temperatures and additional snow are expected to increase the potential for avalanches.

The Bulletin reports that the forecast over the next week calls for wet snow in the Cascades, which would blanket the dry powder that fell over the past week. Those conditions could increase the risk of an avalanche.

The Avalanche Association's Trevor Miller says trained spotters who regularly visit backcountry spots hadn't seen signs of heightened risk as of Friday.

Miller's organization hosts a free seminar

about avalanche awareness in Bend once a month during the winter. He says the talks offer tips about how to assess avalanche risk in backcountry skiing areas.

Autopsy: Woman in Portland garage died of hypothermia

PORTLAND (AP) - The Oregon State Medical Examiner has confirmed that a Portland woman found dead in a downtown parking garage succumbed to hypothermia after being outside in freezing temperatures.

The woman has been identified as 52-year-old Karen Lee Batts.

Central Precinct officers responded to the parking garage Saturday after getting a report that a woman had been removing her clothing while appearing to struggle in the cold weather. She was deceased when officers and paramedics arrived.

GPS directions lead drivers to trouble in Ashland

ASHLAND (AP) - GPS navigational systems have been leading drivers to trouble in southern Oregon.

The Daily Courier reports that in recent days, several motorists have been caught in icy, snowed-in roads after their devices told them to leave the safety of Interstate 5 near Siskiyou Summit south of Ashland.

Jackson County sheriff's Sgt. Shawn Richards says on Thursday, three families drove off of I-5, got stuck and spent the night in the cold because of out-of-date Google maps information. Richards says at the time of the incidents, the freeway was in good condition and completely open.

Search and rescue volunteers are now manning Colestin Road to keep drivers off. Richards says on Friday at least another nine drivers tried to take the short cut on their way to California, but they were intercepted.

Company wants its hard-tokill GMO grass deregulated

PORTLAND (AP) — Federal agriculture officials could decide this week to give up its oversight of a spreading grass that was engineered to resist an herbicide.

The Oregonian reports Scotts Miracle-Gro is no longer planning to commercialize the grass and wants federal agriculture officials to deregulated it.

Scotts partnered with Monsanto to engineer the hard-to-kill grass. Scotts was fined \$500,000 by the U.S. Department of Agriculture for letting it spread.

Federal officials also made the company responsible for controlling the grass.

U.S. Fish and Wildlife found the grass puts endangered plant and animal species at risk.

Umatilla to receive \$180k in ESL funding PORTLAND (AP) English. Each district is Oregon is allocating \$5 required to make a custom million to help 40 school plan to improve its effective-

Oregon sets aside \$5 million for

districts — including Hermiston, Umatilla and Morrow – better teach County English as a second language.

Graduation rates and test results from 2015 and 2016 show that three-fourths of the state's ESL students aren't proficient in math, 60 percent can't read well by the end of middle school and one-third never graduate from high school, reported The Oregonian.

The state is providing funding to the 40 districts it says have done the worst job of helping students learn ness and will be judged on the results achieved by 2020. Umatilla, Bend-La Pine,

Reynolds and Jefferson County school districts are among 15 singled out as having the deepest issues. Those districts have a large number of students learning English as a second language, and a disproportionate share of them are low-income, have moved frequently, arrived in the U.S. recently or are homeless. The second-language students in those districts have shown very little progress in math skills and language, and they are unlikely to graduate or go to college.

Each of those districts will receive \$180,000 this year and is expected to receive the same amount in the next three years.

The other 25 districts, including Hermiston, Morrow County and Ione, will each get \$90,000 per year to improve their English learner programs.

Many advocates for students who speak English as a second language and their families say Oregon districts often teach immigrant children ineffectively and spend money meant for English learners on other things.
