Photo taken on January 6, 2017 on the Umatilla River on the Umatilla Indian Reservation. The location is a spot locally known as "The Falls" where there is about a four foot elevation drop in the basalt layers. When the temperature drops to below zero degrees F. for about a week, the ice formations can be spectacular.

Submitted by Jack Simons

We are always looking for photos from our readers capturing the place we love to live. If you have a photo, send it to photos@eastoregonian.com and it may publish on the front page of the East Oregonian Marketplace.
