HOROSCOPES

WEDNESDAY, FEBRUARY 8, 2017

ARIES (March 21-April 19). Collaborate. The compromise you strike will be worth it, as long as you approach it like an experiment.

TAURUS (April 20-May 20). You're in the mood to uncover a mystery. It seems by now something would have come along to pique your interest.

GEMINI (May 21-June 21). Optimum productivity isn't really about how much you get done; it's about getting the (SET ITAL) right (END ITAL) things done -- the things that matter to you, make a difference to others and possibly enrich and improve your overall experience.

CANCER (June 22-July 22). The beautiful thing about a fantasy life is that it can be anything you want it to be and, no matter how big and wild it grows, it can always stay contained in your head and completely portable, with you wherever you go.

LEO (July 23-Aug. 22). Your wish will be granted precisely as asked. This will inspire you, in the future, to ask in even more specific terms.

VIRGO (Aug. 23-Sept. 22). If you're wondering why you can't seem to give a care about the work at hand, it's because the stakes aren't high enough to motivate you. So make it more fun. Impose a severe limit or an outrageous reward.

LIBRA (Sept. 23-Oct. 23). Though you may fantasize about making a drastic change, the reality is that a series of small steps will get you there with more grace, stability and certainty.

SCORPIO (Oct. 24-Nov. 21). You have no interest in making a "good" impression. You want it to be spectacular. You want them to be thinking of you long after you're gone.

SAGITTARIUS (Nov. 22-Dec. 21). You're in danger of digital overload. Try this radical idea: real life! Meet in person. Tell the joke or the story to someone's face.

CAPRICORN (Dec. 22-Jan. 19). The one you interact with most, in your head or otherwise, is the one you're having a relationship with. The dynamic doesn't have to be positive for it to be meaningful.

AQUARIUS (Jan. 20-Feb. 18). The journey ahead gets increasingly interesting and demanding, too. Answer the challenge by planning to get more sleep. You'll need to be sharp, and sleep deprivation will only lead to mistakes.

PISCES (Feb. 19-March 20). Your patience is legendary, and you'll stick with the program, person or project long after others would have given up. Your intuition tells you to hang in there, and it won't steer you wrong.

TODAY'S BIRTHDAY (Feb. 8). People want to know you and be a part of your team this year, not because of what you can do for them but because of who you are. You're cool. Your talents are a perfect match for the March agenda.
