HOROSCOPES

By Holiday

THURSDAY, MARCH 9, 2017

ARIES (March 21-April 19). Comfort is loose clothes and tight relationships. It feels good and cozy, until it doesn't. Because comfort is a little messy, and it can get (SET ITAL) too (END ITAL) comfortable, too messy. When that line is crossed, comfort changes to discomfort.

TAURUS (April 20-May 20). Energy cannot be destroyed, only transformed. You have been a part of many transformations that you are conscious of and many more that you are not. Today, change will occur around you, through you and because of you.

GEMINI (May 21-June 21). The one skill that has the greatest potential to enhance (or ruin) your life is the skill of knowing how to find good relationships and avoid bad ones. Most people are not born knowing this skill. Study and thrive.

CANCER (June 22-July 22). What you believe about people is what you know about them. It's hard to learn differently. All your questions and observations will follow the prior belief. Drop preconceived notions to the extent that you can, and ask again.

LEO (July 23-Aug. 22). Let the others coast down Easy Street while you take the mountain pass. Challenging work is good for your mind, body and soul. Not to mention, you're extremely attractive to others as you take it on.

VIRGO (Aug. 23-Sept. 22). In the words of the inimitable Talking Heads, "You may ask yourself, how did I get here?" You can bet that any answer you come up with will oversimplify things, but it's still good to ask. This will inform your next move.

LIBRA (Sept. 23-Oct. 23). When you like someone but you can't put your finger on the reason why, give yourself a little shake and then try to reason it out. Relationships (business or otherwise) based solely on a person's charisma will be regrettable.

SCORPIO (Oct. 24-Nov. 21). Your social nature is amplified today. You like to get to know people, which of course is very different from trying to figure out "their deal" so you can offer advice and fix it (like some you know).

SAGITTARIUS (Nov. 22-Dec. 21). The bottom line is that the very predictability that would make you feel secure would also bring a level of boredom so severe it could be classified as dangerous.

CAPRICORN (Dec. 22-Jan. 19). Just when you thought you knew where you were going, a fog descends and the destination cannot be clearly seen. This is when you have to trust your map, engage your senses at a higher level and proceed with caution.

AQUARIUS (Jan. 20-Feb. 18). You'll see the big picture today. For better or worse, the world is on a fast track to change and your role within it is changing, too, as you see new ways to help, contribute and get what you need from it.

PISCES (Feb. 19-March 20). Maybe sometimes it's beneficial to your creative spirit to reason about unreasonable things. Today it's rather pointless. If the problem is logical, solve it through logic. And if it's not, feel your way through.

TODAY'S BIRTHDAY (March 9). The love you give will be so sweetly received and redoubled. A trip you take before June will be magical. There's an exciting change in your professional life in April. One good relationship could change the whole trajectory. There's good fortune to be mined in familial events. Together you'll build something unique. Capricorn and Cancer adore you. Your lucky numbers are: 2, 5, 33, 17 and 21.
