HOROSCOPES

ARIES (March 21-April 19). The question on your heart is a good one. So good, in fact, that there are more elements affecting the matter than you can imagine. Just keep thinking like you are. You'll be a part of a change.

TAURUS (April 20-May 20). At any point in a relationship, someone loves harder. Which one is loving harder? You. You seem to be always loving harder. What is going on with this? Back off. Receive.

GEMINI (May 21-June 21). Health has many levels. Certainly it's not merely the absence of disease or infirmity. The health you are striving for is a state of complete physical, mental and social well-being.

CANCER (June 22-July 22). Your day will center on one idea. This contemplation will guide your action. It will change your conversations. It will change the order in which you do things.

LEO (July 23-Aug. 22). The heart of ambition beats loud in you today. You'll get up to the mountain peak and realize there's a higher one over yonder. A panoramic view from the top will make all of this climbing worth the effort.

VIRGO (Aug. 23-Sept. 22). You're very careful about what you require of others, asking only things that you've personally endeavored. "Nothing is impossible for the man who doesn't have to do it himself." -- A.H. Weiler

LIBRA (Sept. 23-Oct. 23). Some say knowledge is good and ignorance is evil. Others suggest that there's nothing more dangerous than a little bit of knowledge. Since you can't unknow things, be careful about what you try to learn. Follow your moral compass.

SCORPIO (Oct. 24-Nov. 21). Much can be accomplished through lists and organized efforts, but even the most extensive list cannot control the uncontrollable. You'll be dealing with forces that can't be tamed via writing.

SAGITTARIUS (Nov. 22-Dec. 21). Whatever the problem is, you can make it better. Maybe you can't solve it today, but you can improve things. Take the big issue and make it smaller. If it's still too big, make it smaller still, until it's small enough to solve.

CAPRICORN (Dec. 22-Jan. 19). You've done the research, and you've put your theories to the test. Now you know how to go about the job. In order to take it to the next level, teach your way and learn theirs.

AQUARIUS (Jan. 20-Feb. 18). It's pretty clear that the people around you have a different set of rules. If you play by those, you won't achieve to the heights of your ability. Take charge. Set the bar for yourself, and set it high.

PISCES (Feb. 19-March 20). You'll swim between two schools of thought today. One is very logical; the other is intuitive. The numbers won't lie, but they'll never tell the whole story, either.

TODAY'S BIRTHDAY (April 4). You're serious about your goals, and yet your tone is so joyous and light that you create a happier world with your laughter. Next month brings money to your pocket. June is your chance to seize love. July will bring a small but meaningful change that you'll be assimilating thereafter. Happiness flows from the August love. Cancer and Libra adore you. Your lucky numbers are: 4, 33, 29, 28 and 1.
