ARIES (March 21-April 19). Relationships are more than what's at the center of the Venn diagram of two people coming together. The relationship is its own entity, a newborn cell that breaks off with a life of its own that neither party has control over.

TAURUS (April 20-May 20). Here's how this very successful and productive day will play out. Organize in the morning; adapt in the afternoon; claim what's yours in the evening; love all through.

GEMINI (May 21-June 21). You know how telling someone to "relax" usually creates the opposite effect? Well, the same will be true of telling yourself this. Instead, allow for, agree to and even invite the stressful energy. Once accepted, it will dissipate.

CANCER (June 22-July 22). You didn't mean to tread on the tail of the tiger, and yet these things can happen; you're looking the other direction, the sleeping tiger's tail is right in the path. Mercifully, the tiger won't see you as a threat. No harm, no foul!

LEO (July 23-Aug. 22). Active passivity is the mode to stay in. Be ready to act, but don't act until it's time. You're the outfielder. Pay attention and stay open. If you busy yourself unnecessarily, you won't be ready to catch the ball when it comes your way.

VIRGO (Aug. 23-Sept. 22). There's no time to waste in wishing for things you don't have, and neither is there profit in striving. The gifts of the day come from working with what you have. Trade your deeds for compensation.

LIBRA (Sept. 23-Oct. 23). Your options will be different from before. Any move is a gamble -- not a maneuver or a calculated risk, but a straight-up dice roll. You may as well have some fun with this, as said dice are quite literally out of your hands.

SCORPIO (Oct. 24-Nov. 21). Look and think ahead before you venture today. Clear the path of small obstacles and you'll roll right along with your plans. As Confucius said, "Men do not stumble over mountains but molehills."

SAGITTARIUS (Nov. 22-Dec. 21). No one likes to be corrected. However, the wise see the great value in learning of the error and are more likely to reach the error-free, zone while the foolish waste time arguing for the rightness of their mistakes.

CAPRICORN (Dec. 22-Jan. 19). You'll work on matters to improve daily life, including little shifts in organization, timing and the placement of objects in your home. Small changes brighten big.

AQUARIUS (Jan. 20-Feb. 18). "Alea iacta est," said Julius Caesar as he led his army across the Rubicon river. Translation: "The die is cast." You're in a similar position with your squad today. You've embarked and now you just have to see how it plays out.

PISCES (Feb. 19-March 20). You hate to be the alarm clock, but you need the participation of the fully awake. Sound the bell. It will be easier to rouse a snoring person than the walking, talking person convinced that he's already awake.

TODAY'S BIRTHDAY (April 15). Love in abundance! May puts you in an advantaged position; it won't always be the case. Show generosity to the other side. After months of hard work and quiet observation you'll get the chance to reveal a bit of your noble genius to the world in September. July and November are your luckiest financial months. Libra and Gemini adore you. Your lucky numbers are: 9, 40, 3, 33 and 1.
