HOROSCOPES

By Holiday

SATURDAY, MAY 6, 2017

ARIES (March 21-April 19). The difference is you. You are the one who can change the negative into a positive, find the opportunity in limitation and make the most of each win.

TAURUS (April 20-May 20). There's no hurry. There's nowhere you have to be that is not where you are. Embody this, and the synchronicity you feel with your surroundings will make you most attractive to all kinds of opportunities.

GEMINI (May 21-June 21). Although it's true that household chores go faster when done by others and financial details seem more affordable when someone else is paying, you're still determined to take charge and do it all on your own today. Go figure!

CANCER (June 22-July 22). Sooner or later, community concerns will wind up being your concern. You may as well get involved now while opportunities to take on more responsibility will be super-lucky for you.

LEO (July 23-Aug. 22). Your love is like sunshine. People will come out of their comfort zones to feel your warmth. The sun doesn't worry about giving equally to everyone; it shines for all. You should do the same.

VIRGO (Aug. 23-Sept. 22). How do you make someone want what you have? Make sure they know this thing of yours is in limited supply, so rare that it's most likely unavailable to them or at least certainly very difficult to obtain.

LIBRA (Sept. 23-Oct. 23). Gather information, but don't react to it yet. There's more to come tomorrow. And even when you learn all the relevant details, be slow to make your next move. Play your cards close to the vest.

SCORPIO (Oct. 24-Nov. 21). Your aim is rather complex. Practice and repeat all the little parts. This is doable, but it does require a new neurological wiring in your head. Keep going over it until you can produce automatically and effortlessly.

SAGITTARIUS (Nov. 22-Dec. 21). You may find yourself in an awkward position, but you shouldn't let this worry you too much. So much of life is awkward - that is, if you're doing it right. Anyway, getting out of this is simple. Just tell the truth.

CAPRICORN (Dec. 22-Jan. 19). Half-hearted intensity won't produce half-hearted results; rather, it will produce nothing at all. You'll get what you want by committing fully to it. If you can't commit fully, you may as well find something else to want.

AQUARIUS (Jan. 20-Feb. 18). Take the calculated risk. It will improve your lot. And on a related note: Instead of making excuses as to why you should get together with that attractive someone, just confess your admiration!

PISCES (Feb. 19-March 20). There's power in knowing what people want, especially if you're in a position to offer it. There's no one-size-fits-all answer here. Your talent for careful observation comes into play.

TODAY'S BIRTHDAY (May 6). When you love someone, you tend to put up with a lot more from them than you would from anyone else. This applies to beloved endeavors as well, and both will work in your favor in a big way this solar return, as your labors of love will produce astounding results. Windfall months: May, August and December. Scorpio and Capricorn adore you. Your lucky numbers are: 8, 30, 22, 29 and 17.
