HOROSCOPES

By Holiday

TUESDAY, MAY 9, 2017

ARIES (March 21-April 19). When you're rested and cared for, your enthusiasm is naturally strong. If you're feeling less than enthusiastic, don't mistake this for intuition or a judgment about the circumstances. It could very well just mean that you need rest.

TAURUS (April 20-May 20). You're in danger of making things more complicated than they have to be. Take a step back. Breathe deep. Yes, there are many moving parts here, but most happen as a chain reaction to your moving only one or two of them.

GEMINI (May 21-June 21). Don't assume that as long as your time is available you should keep filling it up. Every commitment affects every other commitment. Leave a wide stretch of open space in that schedule and you'll be glad you did.

CANCER (June 22-July 22). Lately you couldn't care less about what people think of you - which is precisely why you are so well-liked. If you dare to extend an invitation, you'll be most pleased with the response you receive.

LEO (July 23-Aug. 22). You know what you want to accomplish, and momentum will be on your side all day long. Also, there are many who want to (and have the means to) help you with your quest.

VIRGO (Aug. 23-Sept. 22). You've been worried that you're not quite qualified to take on a certain job, but the thing is that no one is until the job is theirs. This type of work can only be learned by doing.

LIBRA (Sept. 23-Oct. 23). If you find that your ability has been underestimated, there's a fantastic opportunity in this. You are now in the perfect position to impress and impact with a performance they weren't expecting.

SCORPIO (Oct. 24-Nov. 21). Every flight plan includes a destination point and an estimated time of arrival. Similarly, your current plan will require a few time and space specifics before you'll be allowed to take off.

SAGITTARIUS (Nov. 22-Dec. 21). Your social flair is going strong today, and a wide range of people will be drawn to you, though most notably your fellow fire signs, Aries and Leo.

CAPRICORN (Dec. 22-Jan. 19). People who don't want to do boring work will try and rope you into doing it. How frustrating! But actually, you might find that it's not half as boring as you thought. In fact, there's something juicy in this for you.

AQUARIUS (Jan. 20-Feb. 18). Let no man speak on behalf of your satisfaction and comfort level. The only person who knows if you're really comfortable is you. In fact, you cannot be comfortable unless and until you decide that you are!

PISCES (Feb. 19-March 20). At best, it will be useless to talk about anything outside your realm of direct experience and knowledge. At worst, such talk will be harmful. Gossip is dangerous to both the gossiper and the subject of gossip.

TODAY'S BIRTHDAY (May 9). In the next 10 weeks, a growth process exhilarates production in a couple key areas of your life. Also, your attitude shifts. What used to feel like an obligation will feel like an opportunity. You'll earn big in July and in October. You'll educate and celebrate others in August. There's a move featured in September. Aries and Scorpio adore you. Your lucky numbers are: 8, 40, 3, 13 and 19.
