STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING

The total estimated expenditures for 2017-18 will be \$35,234,897.30, which is an increase of \$15,346,243.21 in comparison to the 2016-17 budget. It is crucial to note that this marked increase is due to the Bond funds, and we should expect to see an equally marked decline in our budget once the bond projects are completed. It is very important to note that we have two factors of consideration in this budget. Firstly, we are relying on carryover from the 2016-17 school year to bring us in to the coming year without personnel cuts. Secondly, enrollment has declined this year. Without significant increases to the State School Fund combined with restored, or increased enrollment, we will face budget cuts again in our future. Our facility bond allows us to address critical maintenance and facility needs so we may focus our limited funds on programs and services with direct student impact.
