EO-9185 REQUEST FOR PROPOSALS

GRANT COUNTY NATURAL RESOURCES POLICY ADVISOR

Grant County is seeking a consultant to monitor natural resource issues of importance to the County and to keep the County Court advised of the issues, their context and assist the County in developing appropriate policy positions. The duties of the County's Natural Resources Policy Advisor will include, but not necessarily be limited to: 1. Coordinating with citizens and public and private agencies on natural resource policy matters; 2. Providing technical and policy support on natural resource policy matters; 3. Preparing policy documents and drafting recommended response alternatives for Court analysis; 4. Reviewing and advising the Court on proposed federal and state legislative and administrative actions that may affect County policies on natural resources; 5. Preparing and recommending policy and technical responses; 6. Develop and present briefing papers; 7. Act as a liaison to federal and state agencies regarding policy development opportunities and assist Court members as they serve in the primary role of policy-implementation with federal and state agencies.

All inquiries should be in written form and directed to Grant County Judge Scott W. Myers myerssw@grantcounty-

EO-9190 PUBLIC NOTICE Boardman Solar Energy Facility Information Meeting on the Complete Application for Site Certificate. Introduction: The Oregon Department of Energy (ODOE or Department), staff to the Energy Facility Siting Council (EFSC or Council) received an Application for Site Certificate (ASC) from Boardman Solar Energy, LLC, a subsidiary of Inveneyo LLC, to construct and operate the Boardman Solar Energy Facility. The proposed facility would be a solar photovoltaic energy generation facility with a peak generating capacity of 75 megawatts (MW) that would be located on 798 acres of private land. Under Oregon law, the applicant must obtain a site certificate from EFSC before constructing and operating the proposed facility. The Department determined the ASC complete on August 29, 2017 and the applicant submitted and filed a final ASC on September 1, 2017. Public Information Meeting: The Department will hold a public information meeting to provide the public with more information about the proposed facility and the EFSC review process. Date: September 20, 2017. Time: 4:00 pm - 7:00 pm. Location: SAGE Center (Theater Room) 101 Olson Rd Boardman, OR 97818. Description of the Proposed Facility: The Boardman Solar Energy Facility would consist of a 75 MW solar photovoltaic energy generation facility with a 2.1-mile, 115-kilovolt gen-tie transmission line as a related and supporting facility. The proposed energy facility also includes related and supporting facilities, including a power collection system, generator step-up transformer, substation, point of interconnection line tap, control house, operations and maintenance building, a main access road and internal service roads and gates, and temporary staging areas. Location of Proposed Facility: The proposed facility would be located in Morrow and Gilliam counties, immediately south of Interstate 84 and approximately 12 miles east of Arlington and 12 miles west of Boardman. The figure below represents the approximately 798-acre facility site boundary. The solar energy generation components of the facility would be located entirely in Morrow County. The gen-tie transmission line would be located in Gilliam County and would connect the facility to the Bonneville Power Administration grid. EFSC Review Process: The site certificate process is a consolidated, comprehensive siting process. The applicant must demonstrate that the proposed facility meets EFSC standards established under Oregon Revised Statute (ORS) 469.501 and set forth in Oregon Administrative Rule (OAR) Chapters 345, division 22 and 24, as well as all other applicable Oregon statutes, rules and standards. The Department serves as staff to EFSC and conducts the application review process. In accordance with OAR 345-015-0300, the proposed Boardman Solar Energy Facility qualifies as a "small capacity facility" because it would have an average electric generating capacity of less than 100 MW and, as such, is being reviewed by EFSC and the Department under the expedited review process. In an expedited review process, there is no Notice of Intent phase, and the Department does not issue a Project Order until after receiving the preliminary ASC from the applicant. The Department's review of the application in all other respects is the same for expedited review as for other site certificate applications. Upcoming Review Phases: The Department is currently preparing the draft proposed order (DPO), which will include staff's analysis of the application, based on the Department's review of the ASC as well as comments received from state agencies, tribal governments, and local governments identified as "reviewing agencies" under EFSC's rules and statutes. Based on staff's analysis of the ASC, the DPO will include a recommendation to EFSC of approval or denial of the site certificate. If staff recommends approval, the DPO will include recommended condition language. Following issuance of the DPO, the Department will open a public comment period and EFSC will conduct a public hearing. At that time, you must provide written comment during the public comment period, or oral or written testimony on the record of the public hearing, to preserve your right to participate in the contested case proceeding and subsequently appeal EFSC's decision. The Department anticipates issuing the DPO during the fourth quarter of 2017. The Department will issue notice of the public hearing and comment period when it issues the DPO. The September 20, 2017 information meeting is not a public hearing. More Information: Please contact the listed siting analyst if you have questions: Katie Clifford, Senior Siting Analyst Oregon Department of Energy 550 Capitol Street NE Salem, OR 97301 Phone: 503-373-0076 Email: Katie.Clifford@oregon.gov The public can also receive more information about the facility and updates on the review process by using the following options: 1) ODOE's webpage: More details on the Boardman Solar Energy Facility, including the ASC, are available online at: http://www.oregon.gov/energy/facilities-safety/facilities/Pages/BSE.aspx 2) Updates by Email/Mail: In order to receive future updates related to this facility or other facilities you must sign up to be on one of the two lists below. You will not automatically be signed up for the lists simply by commenting. Subscribe to GovDelivery for email updates on the Boardman Solar Energy Facility or other energy facilities under Council jurisdiction. GovDelivery is an automated email system that allows interested members of the public to manage subscriptions to information received about ODOE projects and events. For more information, please visit: http://tinyurl.com/EFSC-email. To receive notices by mail, please contact Sean Mole (see below) and request to be added to the paper notice list. 3) In hardcopy: Copies of the application for site certificate are available for public inspection at: Oregon Trail Library District Office Boardman Library 200 South Main Street Boardman, OR 97818 Oregon Department of Energy 550 Capitol Street NE Salem, OR 97301 The Oregon Department of Energy is committed to accommodating people with disabilities. If you require any special physical or language accommodations, or need information in an alternate format, please contact Sean Mole at 503-934-4005, toll-free in Oregon at 800-221-8035, or email to sean.mole@oregon.gov. September 6, 2017
