# ORTHODONTIST

Durk V. Irwin, D.M.D. P.C.  
BRACES FOR CHILDREN & ADULTS

The American Association of Orthodontists recommends that all children have an orthodontic screening no later than age 7.

## Early preventative or interceptive care offers the following benefits:

- Guide the jaws and erupting teeth into more favorable positions.
- Improve the growth and alignment of the jaws.
- Preserve space for the permanent teeth.
- Minimize the need for extracting permanent teeth.
- Reduce the likelihood of fracturing protruded front teeth.
- Correct harmful oral habits.
- Improve some speech problems.
- Reduce the likelihood of impacted teeth.
- Improve aesthetics and self esteem.
