

GENERAL SIGNS AND SYMPTOMS OF CANCER

You should know some of the general signs and symptoms of cancer. But remember, having any of these does not mean that you have cancer — many other things cause these signs and symptoms, too. If you have any of these symptoms and they last for a long time or get worse, please see a doctor to find out what is going on.

- Unexplained weight loss
- Fever
- Fatigue
- Pain
- Skin changes
- Sores that do not heal
- Change in bowel habits or bladder function
- White patches inside the mouth or white spots on the tongue
- Unusual bleeding or discharge
- Thickening or lump in the breast or other parts of the body
- Indigestion or trouble swallowing
- Recent change in a wart or mole or any new skin change
- Nagging cough or hoarseness
