Note: Beamer is one of a kind and is absolutely gentle for anyone to ride! He will put a smile on your face every time you ride him. He is super quiet and will go anywhere you ask him. Beamer has a big stop, nice roll back and lopes nice circles in the arena. He stands 15.1h and weights 1,275 lbs. with a ton of class and personality. He is good with flags, tarps and will drag anything you put behind him. We have started shooting off him and he takes everything in stride. He isn't spooky and saddles up the same every time no matter how much time off. Beamer is a very honest gelding that is safe, gently and sound. You won't want to miss him!
