PHOEBE AND HER UNICORN

BY DANA SIMPSON

Should I be happier right now?

Are you unhappy?

Not really.

But I'm also not, like, in a state of pure, ecstatic bliss.

How happy is happy enough? How do I know when to keep trying for MORE happiness, and when I should just cruise along at my current happiness level?

And what is happiness anyway? It's not a single thing you can measure. So there's no possible way to even KNOW if you're as happy as you could be.

I am hanging out with my best friend. That is as happy as I need to be just now.

That's not a very "unicorn" answer.

It makes me look good, and is therefore the MOST unicorn answer.
