About Public Notices

Public notices inform citizens about the activities of government bodies — such as budgets and public hearings, upcoming meetings and elections — so that citizens can make their opinions known before an action is taken or a rule or law is made. They also include information about foreclosures, unclaimed and forfeited property, estate claims and probate notices, summons, and calls for bids.

- The four characteristics** of public notices:
- They must be published by an independent and neutral third party,
 - They must be archived,
 - They must be accessible to the public,
 - The public must be able to verify that the notice was not altered once published.

Newspapers provide an independent and archived record of public notices, accessible in print and online, and provide affidavits of publication when requested.

Public notices in newspapers protect the right of due process as guaranteed to Americans by the Constitution.

101 Legal Notices

Notices under this classification are required by law to run in a newspaper of general circulation. A notarized proof of publication will be provided for all notices. Some notices may require pre-payment. Deadline for submission is 3pm, three (3) working days prior to required publication date.
