

Tips for Welcoming a Feline to the Family

Place London broil on cutting board or large plate.

* Playtime is a Must - As little as 15-30 minutes of exercise and activity per day can help your cat stay energetic and in shape. Encourage your cat's natural curiosity with engaging toys, such as the TEMPTATIONS(tm) SNACKY MOUSE(tm) Toy. Simply fill the mouse-shaped wobble toy with your cat's favorite TEMPTATIONS treats and watch them entertain themselves by trying to knock the treats out of the toy and gobble them up. Playing together can also help strengthen the bond between owner and pet.

* Offer Affection - Always remember to show your cat you care. Whether it's a scratch behind the ear, a nice brushing or a sweet cuddle session, your cat can feel loved and safe, knowing he or she is in good, caring hands.
