PUBLIC NOTICE

The U.S. Department of Commerce, Economic Development Administration (EDA) is considering a request from City of Pendleton for Federal assistance to further develop the Pendleton Unmanned Aerial System (UAS) Test Range located in the City of Pendleton, Umatilla County, Oregon. Pursuant to the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA), EDA is conducting an assessment of the potential of the proposed project to affect the environment and/or historic properties. The project will support the growth of the Pendleton Unmanned Aerial System (UAS) Test Range. The test range serves as critical infrastructure in the UAS ecosystem nationwide and internationally. The Pendleton UAS Test Range is a campus where the new UAS technology is researched, designed and tested before the technology can be commercialized. By assisting the FAA with the safe integration of the National Airspace System, the Pendleton UAS Test Range essentially acts as a "bridge to market" for new technology. Unmanned Aerial Vehicle (UAV) companies come to Pendleton to test their products because of the good flying weather, low air traffic, limited ground cover, and well-established UAS infrastructure. The project will be located at Eastern Oregon Regional Airport, 2016 Airport Road Pendleton, OR, 97801. Project information is available for review at the City of Pendleton, City Hall located at 500 SW Dorion Ave., Pendleton, OR 97801.
