PHOEBE AND HER UNICORN

BY DANA SIMPSON

I've never been over there.

What of it?

So we've ridden past this spot a bazillion times, but ten feet that way is unexplored territory.

ANYTHING could be over there. It's weird how places you know by heart can be so close to... **THE UNKNOWN.**

We have never gone over there because of the troll.

He lives just behind that shrub, and children who go too near him...

...are **NEVER SEEN AGAIN.** GASP

Ha ha ha! I am only pulling your leg.

Oh! Ha ha ha.

No, he would only spray us with his garden hose.

GET AWAY FROM MY VARIOUS SHRUBS.
