

Suffering from NEUROPATHY?

HANDS | FEET | ARMS | LEGS | BACK | FACE

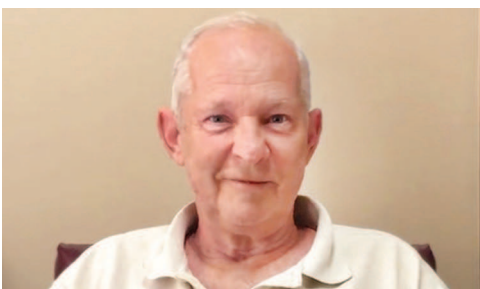

Experience healing with regenerative stem cell therapy at Stem Cell Centers!

As a national leader in stem cell therapy, we have successfully treated tens of thousands of patients suffering from chronic pain and other conditions.

Our network of top medical providers utilizes stem cells that are ethically and safely donated. Our advanced treatment protocols include rigorous testing and processing of the stem cells at an FDA approved biologic lab.

- PINS and NEEDLES
- TINGLING and BURNING
- OVER SENSITIVITY or REDUCED SENSATION
- CRAMPING and MUSCLE WEAKNESS
- POOR BALANCE and COORDINATION
- SLOW REFLEXES

Neuropathy

“My first treatment at Stem Cell Centers, I saw a dramatic change in the way I could walk. I didn’t have to use a walker or cane anymore. I felt very stable. I didn’t have any fear of falling. After my second treatment, six weeks later it got even better. I’m going to recommend it to anybody who I think needs some stem cell therapy.” ~ Gary

Neuropathy

“I went to a seminar and I decided I had nothing to lose and everything to gain. I started the stem cell treatments and it’s been about a month ago, and I can ride a bike now. I could never raise my leg up high enough to get it into the car, without having to pull my leg up to get in. And now I don’t have to do that either. I feel that I’m improving every single day.” ~ Yvonne
