

Celebrating National Hospital Month

CHI St. Anthony Hospital

National Hospital Month, one of the nation’s largest health care events, is a celebration of the history, technology and dedicated professionals that make hospitals and health systems beacons of confidence and care in the community. This annual event provides an opportunity to celebrate the millions of women and men who are committed to improving the health of their communities.

CHI St. Anthony Hospital extends our gratitude and heartfelt thanks to all members of our healthcare community. We recognize that providing top quality healthcare to our community takes a team. Whether that team member works at the hospital, privately owned physician clinics, Labs, mental health, social support services, EMS, Fire Dept, police, etc., we want you to know how much we appreciate you and your commitment to the care and well-being of the people we serve.
