DAVID WEBBER in the East Oregonian Gallery

Opening Reception Thurs., July 5, 5:30 - 7:00 PM

Webber's photographs and videos start with images from the real world, and through transformation they become hybrid forms. They confuse the boundaries of their reference and challenge the viewers' perception of what they are seeing. Superimposing images through layering, he pushes them to varying degrees of density by creating simple composites, fields of color, and meshed textures.
