STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING FROM LAST YEAR *

The College's 2019-20 Budget includes a few changes from the current year budget. It is anticipated that the College will have cost savings during the current fiscal year that will result in an increased Beginning Fund Balance. Revenue from State Sources has increased due to planned increases in State Grant funding. This increased grant funding will impact Materials & Services Expenditures in the Instructional Support functional category. The College has budgeted for increased Personnel Services due to contracted pay increases for employees and increases in the Public Employee Retirement System (PERS) rates. These increases are reflected in the Instruction and College Support Services functional categories. Materials & Services also reflects an increase for the new Enterprise Resource Planning (ERP) software system the College is implementing. This also impacts the College Support Services functional area. The final significant change is an increase in Interfund Transfers. This reflects a transfer from the College Reserves to the General Fund due to General Fund Requirements exceeding Resources. This also has an impact on the Unappropriated Ending Fund Balance.
