An eclectic mix of artists, antique and vintage dealers, along with specialty food and adult beverage tasting is featured during the Bonanza Art Antiques & Gourmet Expo.

The inaugural event will bring together more than two dozen commercial artists. Painters, jewelry makers, wood sculptors, metal and leather workers, and other artisans are featured. In addition, small gourmet food producers will be on hand. Also, visitors can taste products from several Oregon wineries, breweries and other craft beverage makers.

The Bonanza Art Antiques & Gourmet Expo is Friday, June 7 and Saturday, June 8 at the Pendleton Convention Center, 1601 Westgate. Both days run from 9 a.m. to 4 p.m. General admission is \$7 for a two-day pass. A craft beverage tasting pass is \$12, providing an opportunity to taste more than a dozen Oregon brands.

"We are bringing a unique group of antique and vintage dealers, artists and makers to Pendleton, most of them for the first time," said Val Antcil, show organizer. "We have dealers coming from Portland with great Western memorabilia and even vintage Round-Up collectibles."

In addition, organizers have adopted the former Pendleton's June Cruisin' Car Show — rebranding it as Bonanza Retro Rides Show. Featuring vintage cars, retro campers and even a vintage Bell helicopter, Retro Rides will be on display Saturday from 9 a.m. to 2 p.m. in front of the convention center. The registration fee to enter vehicles is \$20. People can register in advance at www.pendletonbonanza.com or

BOOK REVIEW

Bonnie and Clyde are saving the world — again

The third and final installment of the Bonnie and Clyde series by Clark Hays and Kathleen McFall hit bookstores May 23 with an atomic blast.

"Bonnie and Clyde: Radioactive" follows the bank robbers-turned-government secret agents to Richland, Washington, in 1945, during World War II, where they pose as saloon owners in the dusty town that has sprung up around the Manhattan Project. Their regular backroom poker parties feature a collection of people under suspicion of selling the secrets of the project to foreign powers, and it's the job of the infamous pair to suss out whose arm is being twisted due to a shady past — something all the suspects seem to have.

The action heats up as the body count rises, par for the course in any situation involving the troublemaking twosome. Throw in a pair of Russian circus performers, goons lurking around every corner and a firebomb or two, and it all adds up to business as usual for Bonnie and Clyde.

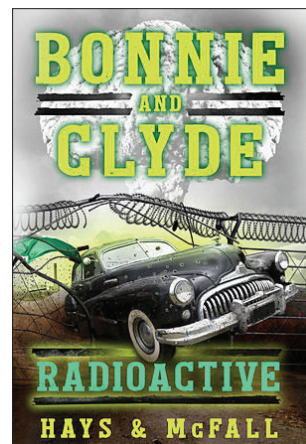

The new book continues to jump back and forth between Bonnie and Clyde's exploits on the behalf of the government

and the modern-day story of an elderly Bonnie enlisting the help of a newspaper reporter to finally tell the story of what really happened all those years ago — and to discover the real identity of the couple's handler, Sal. Bonnie and her new cohort travel across the United States in search of clues, followed at every turn by people who don't want the story to come to light — and will do anything to keep the secret buried.

Will the Russians, the Germans, the Chinese or the Japanese get the plans for the bomb? Will Bonnie and Clyde figure out who's being blackmailed for the secret? Will Bonnie survive long enough to bring her story full circle?

Hays and McFall have a knack for creating strong, clever female characters paired with steady, supportive (though sometimes clueless) partners. Building an alternate history around two of America's most notorious criminals, where Bonnie and Clyde's reluctant participation evolves into active patriotism over the course of the series, is nothing short of incredible.
