WINE GUIDE | TYPES OF WINE

What Is a Wine Blend?

We're familiar with varietals such as pinot noir and chardonnay, but you may see some labels that say red blend or white blend.

Just like the name suggests, these wines are blends of different varietals.

MORE THAN JUST A GRAPE

Legally, even varietals can be a blend. In the U.S., a varietal needs to be 75 percent of one type of grape. Wineries can add up to 25 percent of other grapes to enhance the original varietal and still be labeled as that grape. Blends contain at least 40 to 50 percent of one type and a mix of two or more others.

COMPLEXITY

Blending enhances aromas, colors, textures and body. Common varietals used in blending are malbec, merlot and cabernet sauvignon. Blends are usually mixed in a steel tank, and more expensive blends are aged in oak. Aging, bottling and fermentation methods and timelines often vary from winery to winery.

TRADITION

There are some traditionally blended wines. Rioja, for example, comes from a region of Spain that includes La Rioja, Navarre and Alava.

Wines from this region are normally a blend of grapes and can be red, or tinto; white, or blanco; or rose, rosado. The most widely used variety of tinto grape is tempranillo,

which contributes the main flavors and aging potential. It's mixed, usually, with garnacha tinta, graciano and mazuelo, used for seasoning and aromas.

TRY SOMETHING NEW

Start with a varietal you like (though you're not likely to see pinot noir; it's too delicate) and look for blends that include that grape. You also

can look for blends from regions you like.

Find a good wine store and ask the experts there to point you to new blends and bottles for you to try.
