Planets Favor Practicality Mercury enters Virgo and the sun forms an auspicious angle to Uranus -- a golden, if practical, opportunity. Don't waste time pondering the mysteries of life of trying to perfect an arrangement. Get to work. It may help to make peace with the fact that you'll never come to a complete under-standing of something as complex as a human being

ARIES (March 21-April 19). The Mercury change presents a real opportunity for you to start ticking things off your to-do list. First step: Make the list. It will bring so much satisfaction to organize your thoughts this way.

TAURUS (April 20-May 20). A long stretch of the same activity over and over will kill your enthu siasm. So keep changing it up today. Every time you start a new exercise, your energy will renew and you'll mentally refresh and become a little more alive.

GEMINI (May 21-June 21). Motivation is unreliable. It surges at random times and then disappears without notice. To counter act the unpredictable nature of motivation, set up your own encouragement instead of expecting it to drop in.

CANCER (June 22-July 22). Strictly speaking, wanting a thing isn't enough to make it so. But wanting a thing over and over deeply and with great willingness to do quite a lot to bring it into reality -- that's the sort of wanting that makes things happen.

LEO (July 23-Aug. 22). There's a habit-swapping opportunity to day. Giving something up is hard but it's made easier when you do it at the same time as starting something else new to take its place.

VIRGO (Aug. 23-Sept. 22). "Is this really necessary?" That's the question in the back of your mind that could stand to come forward now. You can't just get rid of all the unnecessary things at once, but you'll be amazed at what a few cuts will do for you.

LIBRA (Sept. 23-Oct. 23). You've a stellar sense of direction now and it extends in many areas of life, including physical, spiritual b and emotional. Of course, what good is knowing where to go unless you actually go? Take cour age and make your move.

SCORPIO (Oct. 24-Nov. 21) Looking for answers in the familiar places will bring you common acceptable solutions. It's fine for most of what you seek, but not for all of it. Unusual problems require unusual solutions found in strange places.

SAGITTARIUS (Nov. 22-Dec. 21) If you were to put your own health and joy at the top of your priority list, this would jostle your sched ule a bit. You'd do some different things, and some of the same things, only you'd do them differ ently. Try it and see!

CAPRICORN (Dec. 22-Jan. 19). Sweet attractions have a shelf life. Some disappear quickly like a Popsicle in the sun, and some last as long as Twinkies, and for reasons just as mysterious.

AQUARIUS (Jan. 20-Feb. 18) You need to nudge things into being more of what you want and less of what you don't. It's work. But it doesn't have to be uncomfortable work. What can you do to make the process more pleasant?

PISCES (Feb. 19-March 20). While the naturally logical thinkers may have an advantage with today's task, those who think differently will get there with a little more effort. Anyone can learn now to set reasonable goals and

You can't do everything your way, but this trip around the sun brings
