HOROSCOPES BY HOLIDAY MATHIS FRIDAY, JANUARY 15, 2021 In the Last Days of the Capricorn Sun

You can't always do what you love, and you'd be lesser for the indulgence of such a constant. To decide to love what you're doing is where the real magic is. Commitment plus attitude makes what you're doing become lovable - the actions, the trajectory, the purpose behind it. With this as a background, the picture will fill in with deep, resonant hues.

ARIES (March 21-April 19). A feeling of progress is an exhilarating high. The actual length of the stride forward isn't the point. That it's forward at all - that's a gift wrapped in the shiny paper of hope

TAURUS (April 20-May 20). Before you tend to the typical things, carve out time for those unusual pursuits. They will hold you in good stead, becoming more interesting to you as you delve deeper. You, in turn, become more interesting to others.

GEMINI (May 21-June 21). The value of love is beyond anything that can be quantified. Those who are counting what has been exchanged are ultimately exchanging something other than love. It's fine, as long as you recognize the difference.

CANCER (June 22-July 22). One myth is that people who feel great and have lots of energy get the best results. The truth is that astounding and important things happen from all kinds of moods, so appreciate whichever one you happen to be in.

LEO (July 23-Aug. 22). You are afraid to require things of people because you want it to be easy for them to be around you. What you're not understanding is that people need to be needed. Requiring something of them is a gift.

VIRGO (Aug. 23-Sept. 22). What is said is important, but who is saying it is even more important. Some words must come from you, and other sentiments will be better received coming from a different voice.

LIBRA (Sept. 23-Oct. 23). You're so concentrated on

your deliverables that you don't even consider what it's going to feel like to enjoy the fruits of your effort. Good. It will be a surprise.

SCORPIO (Oct. 24-Nov. 21). When people praise your vision and follow-through, you can't fully bring yourself to accept the credit. That's because you're honest. You realize that you got here, at least partly, by accident.

SAGITTARIUS (Nov. 22-Dec. 21). You can mostly, but not totally, be your own coach. You need someone to show-off to, impress and be accountable to and encouraged by. This, however, can be accomplished in the briefest of interactions.

CAPRICORN (Dec. 22-Jan. 19). When you work, you work hard. This is why it's so important that you choose the best things to work on. Hint: It's probably not the task being tossed to you. Forget about the others for a minute. What do you want?

AQUARIUS (Jan. 20-Feb. 18). You prefer that the people around you be happy, and you'll make efforts to that end, all the while realizing that no one actually makes another person happy, though it's possible to create environments more or less conducive to joy.

PISCES (Feb. 19-March 20). It will be obvious the possession that no longer serves a purpose, the baggage that has both spiritual and actual weight, the subscription you don't use or habit that you've outgrown. This calls for ruthless subtraction.

TODAY'S BIRTHDAY (Jan. 15). The secret to winning at your game is refinement. In matters important to you, you'll review your process, pour over data, invent improvements to try, reassess the data, double down on what's working, cut out what's not and endlessly strive for mastery. Your relentless attitude pays you in an abundance of joy. Leo and Gemini adore you. Your lucky numbers are: 8, 30, 1, 27 and 17.

a direction change for Uranus, we ride out the last days of the Capricorn sun. It's a good time to report to the leader within. How well have you been able to manage yourself? The right goal helps, which is to say the one with enough magnetism to pull you past distraction and temptation.

ARIES (March 21-April 19). While putting in the time is definitely part of what makes improvement happen, the harder part is putting in the effort. Do the hours with a ride-or-die attitude and you'll go far today.

TAURUS (April 20-May 20). When someone thanks vou for putting up with their flaws, you may realize the power in this gesture. You, being imperfect as well. will feel a warm rush of gratitude to those who love you anyway.

GEMINI (May 21-June 21). Since you are in love with a process, you don't have to wait until you reach a milestone to be happy. You love the game - the small decisions you make along the way, the chance to move, test, observe and move again.

CANCER (June 22-July 22). Someone expects more of you and you, in turn, expect more of yourself. This is priceless. Although, if you're value-curious, just look at how many coaches and consultants are out there willing to charge you for the same thing.

LEO (July 23-Aug. 22). You want attention but only if it helps you make a difference. You're not interested in fame for its own sake. It is only meaningful in so far as you can do good in the world with it.

VIRGO (Aug. 23-Sept. 22). When the discussion turns to friends in high places, it's better not to chime in. The temptation will be to prove how well you know someone but the more admirable choice is to say very little.

LIBRA (Sept. 23-Oct. 23). Because of limited

be listened to for four minutes. The one who talks for four minutes will also be listened to for four minutes - that's 100% listened to. Make that you.

SCORPIO (Oct. 24-Nov. 21). Excellent communication skills can be learned. You can memorize the right things to say and deliver them with perfection, and yet... the messy, intuitive blowout may very well connect deeper and say more.

SAGITTARIUS (Nov. 22-Dec. 21). You'll execute an artful plan regardless of how creative you may be feeling at the moment. That's the thing about artful plans. They can't help but fall beautifully together.

CAPRICORN (Dec. 22-Jan. 19). "I still have a lot to learn," or so you may say. These magic words apply across the board in dozens of contexts. Use as many times and in as many places as you feel they're appropriate.

AQUARIUS (Jan. 20-Feb. 18). To find out what's inside a pretty package, you have to find a way in and open it. Then again, what's the rush? Why not carry it around for a while and let everyone wonder, just like vou do.

PISCES (Feb. 19-March 20). Does every wondrously bright quality have a shadow side? No, although entities without dark elements will be ill-defined by earthly eyeballs. Contrast gives shape, though it needn't be extreme to be effectively seen.

TODAY'S BIRTHDAY (Jan. 16). There's no shortage of opportunity this solar pass, and your true talent is choosing wisely. You don't always pick the pretty or easy things, opting instead for prospects that glow with the potential to refine your skills, improve your lifestyle, enhance your relationships and elevate your soul. Scorpio and Cancer adore you. Your lucky numbers are: 37, 7, 30, 16 and 42.
