SUNDAY, APRIL 25, 2021 Full Moon Pre-Show

expectation.

The moon swells to tomorrow's full status in the realm of Scorpio, where deep secrets pool to reflect her, somehow offering back an image that is all at once completely illuminated and wholly mysterious. There's a sense of impending elation, like watching the "coming soon" trailer and experiencing the first blushes of tomorrow's world.

ARIES (March 21-April 19). The first idea that comes to you may indeed be the best one, but come up with more anyway, if only for the accompanying thrill of heading into unexplored directions.

TAURUS (April 20-May 20). It's someone's job to make you think that you need the shiny new thing and nothing else will substitute for it. In fact, many substitutions, including those you already own, will work fine, if not better, for you today.

GEMINI (May 21-June 21). Impatience and frustration only arise if you believe things should go according to your wishes instead of just going as they go. To embrace the indifferent aspects of life is a liberation.

CANCER (June 22-July 22). The most productive day involves stints of concentrated effort followed by breaks in the fresh air. To skip the breaks makes the journey much less enjoyable, and longer, too.

LEO (July 23-Aug. 22). While emotional energy, like love, may be invisible, to your eye, it animates the physical world quite obviously. You will easily tell how people are feeling, especially when they are trying to hide those feelings.

VIRGO (Aug. 23-Sept. 22). Daydreaming is anything but a waste of time, though don't expect concrete ideas to come from it now. Today's flights of fancy open up the borders for later breakthroughs

LIBRA (Sept. 23-Oct. 23). Change out one part

of the recipe and you have an entirely new recipe. People, like ingredients, behave differently in various combinations. One individual will alter the whole dvnamic

SCORPIO (Oct. 24-Nov. 21). In today's case, building a relationship doesn't mean adding things to it. In fact, oddly enough, the ties will get stronger when

you eliminate something – perhaps a formality or an

SAGITTARIUS (Nov. 22-Dec. 21). You're not usually a fan of remixes, but in today's case, it's a necessity. You'll be the one rearranging a thing, not because you want to outdo the original but because you need it to fit your purposes better. CAPRICORN (Dec. 22-Jan. 19). You'll make even the

most disparate elements seem to coincide. You can even find relationships between things that seem to be working at cross-purposes. Conflict won't scare you. You'll dance on the tension. AQUARIUS (Jan. 20-Feb. 18). You've a quirky style

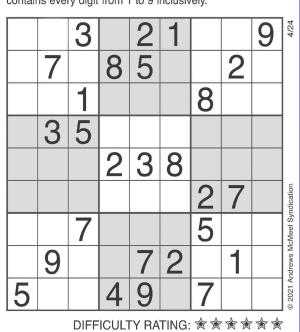

and a worldview that could be described as "singular." You're unintentionally entertaining, and this works in your favor. Once disarmed, people are so amenable to your suggestions!

PISCES (Feb. 19-March 20). You don't fear the influence of others. You know who you are. It is because your rules for yourself are so firm that you can afford to have an open mind.

TODAY'S BIRTHDAY (April 25). There are those who use their power so well we think of them as entities. The difference they make and what they've come to symbolize is larger than any one person could be. This is where you're headed - an excellent steward of your gifts, growing in influence and with a modesty that puts purpose before ego. Libra and Pisces adore you. Your lucky numbers are: 3, 33, 37, 1 and 18.

MONDAY, APRIL 26, 2021 Super Pink Moon

♥♥♥♥♥♥♥₽₽₽₽ the cutest-named cosmic happening of 2021. While "Super Pink Moon" seems a worthy name for a pop band, a runway show or an anime series, it will also prove a worthy title for the mysterious lunar glow, giving our fascinations and temptations an extra pop

ARIES (March 21-April 19). Living the same day on repeat requires no creativity. You crave a different experience. The vision of your new day will be inspired by conflict. Where there's friction, there are sparks... just what your imagination needs to light up.

of allure.

TAURUS (April 20-May 20). When you were small, you sometimes found the talents of others to be a threat to the attention and resources you needed. Today you welcome the inspiration and thrive as you work with equal talents to your own.

GEMINI (May 21-June 21). The day is cosmically

aligned for strategizing. Think far ahead. Imagine what you are likely to encounter, and then brainstorm how you might handle these variables CANCER (June 22-July 22). Over time, you've put up with a lot of guff from authority. Now that you've

earned a key place, haven't you also earned the right

to decline participation in particular annoyances? It's

a good day to test the theory. LEO (July 23-Aug. 22). In one sense, you know where you are... and yet, in some ways, you still feel completely lost. Rid yourself of gnawing doubt. Affirm your position by noticing where it's not. Think in terms

of opposites. All positioning is relational. VIRGO (Aug. 23-Sept. 22). You find it interesting to think about other people's experience of you. Because most will not take the time to consider interactions from multiple viewpoints, your skill for perspective hopping will give you many advantages.

LIBRA (Sept. 23-Oct. 23). Though wary of getting

This full moon in Scorpio has the distinction of being dragged into a drama, you still hear people out. The benefits of doing so outweigh the dangers. Staying open makes you rich in compassion, knowledge and adventures.

> arrows were pointing to where you are now. Your eyes are on a new prize. You'll get there soon enough! SAGITTARIUS (Nov. 22-Dec. 21). Even though you're in love with some of your current theories, you still leave room for doubt. This won't diminish your confidence one bit; rather, it's the element of realism

> SCORPIO (Oct. 24-Nov. 21). Remember when it

seemed you would never have a role like the one you have today? But looking back, it's as though all

that keeps you constantly improving. CAPRICORN (Dec. 22-Jan. 19). Future projections factor into your agenda. Something to keep in mind: The question of what's possible from a real-world standpoint will be answered very differently five years

from now. AQUARIUS (Jan. 20-Feb. 18). There was a time you felt very unheard. Now people are listening, and you're not always sure what to say. While some would take the opportunity to say all, you're strategic. What's going to help? Start with that.

PISCES (Feb. 19-March 20). The child says it's too hot. The customer says it's too heavy. The boss says it's too loud. You'll handle any worthy request. You'll stay nimble in the face of the shifting needs and fickle interests of those you aim to serve.

TODAY'S BIRTHDAY (April 26). The brave decisions that matter are very small and numerous. In fact, you'll make them almost daily, following a small voice that says things like "Talk to that stranger"; "Throw your hat in the ring"; "State what's on your mind." Your regular courage adds up to impressive circumstances and creations that improve lives. Pisces and Aquarius adore you. Your lucky numbers are: 6, 47, 39, 22 & 8.
