Volume is sometimes mistaken for clarity. As the person who tries to talk louder to be understood, with unsuccessful results, learns firsthand, though, turning up a misunderstood thing often has the opposite effect than intended. Address clarity problems instead by defining terms and clearing up the noise around a signal.

ARIES (March 21-April 19). The muses are with you now when you speak or write, and you'll be communicating from the heart. With easy eloquence and effortless persuasion, you'll enjoy the warmth of other hearts shining your way.

TAURUS (April 20-May 20). Your fantasy-world escape is offering free admission for brief visits. If you find yourself staying too long in the dream, however, the dream will start charging you rent.

GEMINI (May 21-June 21). Do you eat last and clean up first? Do you listen way more than you talk? Do you have the oldest phone in your family? Your selfsacrificing style may not always be fun, but you are deeper and richer for it.

CANCER (June 22-July 22). Your empathetic talents will serve you well. You'll mentally put yourself in someone else's place and make a good guess about what behaviors would be necessary in order to uphold that position.

LEO (July 23-Aug. 22). Try not to think too far into a circumstance or dwell mentally on things that can only be experienced. There is no substitute for being there, so just go.

VIRGO (Aug. 23-Sept. 22). Since what you seek is also seeking you, all this shifting you're doing only makes it harder for the thing to catch up with you. Be still. Stop searching for it and let it find you.

LIBRA (Sept. 23-Oct. 23). Confucius said, "To be wronged is nothing unless you continue to remember it." Arguably, some offenses are more memorable than

SCORPIO (Oct. 24-Nov. 21). It's not always obvious how to best share. There are those who would accept your contributions but don't really need them, and others who need them very much but don't know to ask. Stay aware and awake to those who need you.

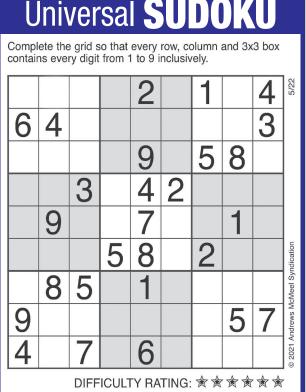

SAGITTARIUS (Nov. 22-Dec. 21). Force is, by definition, a conflict with the reality of the moment. Maybe it's what's necessary, though other considerations might be entertained. To do more than what's necessary is a waste of energy.

CAPRICORN (Dec. 22-Jan. 19). When you were a child, there was much you looked forward to with excited anticipation. Now there's even more. A different and varied set of expectations alights the buzz of giddiness. Sometimes it comes on for no reason at all.

AQUARIUS (Jan. 20-Feb. 18). Your plate is full because people trust you to get the job done. They have a high level of faith in you -- something you can effectively pay forward, as you'll be needing to delegate some of this.

PISCES (Feb. 19-March 20). Freedom isn't always a process that takes forever. Sometimes, it's a state of mind that can be achieved in an instant. The way out may be just to get out - to rise above and find something different to care about.

TODAY'S BIRTHDAY (May 23). You're not the only one going for a prize, but you'll be the only one who takes it home. You'll be impressed by who follows you. In fact, you could gain more support and attention than you know what to do with, at least at first. The inner journey will mirror the outer one and vice versa. Both involve great distances. Gemini and Scorpio adore you. Your lucky numbers are: 8, 3, 11, 30 & 49.

progress without sticking its neck out. The pet-turtle forum shows many comments to the contrary. As for us, it's possible to choose a style and a risk level we feel comfortable with. Under this Scorpio moon, ask to see all available options instead of automatically signing up for the risk that's offered.

ARIES (March 21-April 19). Mixed in with your sunny and constructive thoughts will be a number of unhelpful ones trying to pass themselves off as truth. Shut them down by questioning your thoughts to make them prove their merit.

TAURUS (April 20-May 20). The first step to acing the assignment is understanding that there is one. Find out what is expected of you, and then decide whether it's an expectation you care to fulfill.

GEMINI (May 21-June 21). You'll play around with your mental focus as if it were the zoom lens of a camera, toggling between a very detailed observation and the wide focus that lets more world in and makes problems seem small, if they exist at all.

CANCER (June 22-July 22). You already learned the unhappiness that can come from mistaking the extras for necessities. A grateful heart remedies the distortion; a humble attitude prevents such confusion from happening in the first place.

LEO (July 23-Aug. 22). It may seem like you crave a particular circumstance, though it could really be a feeling you're craving - and that can be conjured in a number of ways. Stay open to the possibilities.

VIRGO (Aug. 23-Sept. 22). You think you sense what the other person wants, and then he states his case and it's not what you thought. But actually, you're more correct than he was about it. People are notoriously bad at knowing their own wants.

LIBRA (Sept. 23-Oct. 23). Evidenced in magic tricks and parties where people hide in the dark and pop

and planted. But not today! The spontaneous novelty shows up naturally from out of the blue.

SCORPIO (Oct. 24-Nov. 21). Nothing is fixed in your life at the moment. You can tinker with the variables and completely different outcomes will unfold. There's the exciting feeling of everything being up in the air without a hint as to how it will all land.

SAGITTARIUS (Nov. 22-Dec. 21). There have been times when you've dared to act on intuitive impulses running counter to reason and the results were so right for you. Now you wonder what would happen if you were to function completely from intuition.

CAPRICORN (Dec. 22-Jan. 19). You're not afraid of change. You've accepted it as the only thing consistent in existence! Still, you like to have a general sense of where things are going. Today features a fascinating information-gathering session.

AQUARIUS (Jan. 20-Feb. 18). This phase of life is like a costume you wear for a time, as you enact a role. Changing things about the costume doesn't change the role, but it makes you feel and move differently inside it.

PISCES (Feb. 19-March 20). You may fumble around a bit in the effort to find your place. You'll be served by every mishap, enriched by the contrast of an eruption of confusion that settles into perfect peace.

TODAY'S BIRTHDAY (May 24). It's almost impossible for you to be selflessly generous, because you keep getting handsomely repaid for the sacrifices you make. It's like the universe is insistent on doubling your rewards. Fortune will favor you through collaborations. Athletic wins and creative breakthroughs are featured, too. August brings a game-changing deal. Sagittarius and Taurus adore you. Your lucky numbers are: 7, 25, 4.26 and 1.
