WEDNESDAY, JUNE 9, 2021 New Moon Preparations

fresh with a project, relationship or area of your life. The Gemini influence on tomorrow's prospects will center around the social and intellectual. Who and what you know will alter your destiny. Discover and quide your curiosity to ready yourself for tomorrow's new moon and eclipse.

ARIES (March 21-April 19). One quest that's worthy of you is the quest to become masterful at reading the room. Even the most familiar rooms have more to offer once you tune into their particular frequency and adjust your own accordingly.

TAURUS (April 20-May 20). The action won't be controlled. This scene has a force too strong for one person to thwart or even steer, but it can be influenced, nudged along in a way that will make a

GEMINI (May 21-June 21). You'll use different words and make updates to the way you present yourself both in person and in the digital realm. Your fresh style will bring social and professional opportunity.

CANCER (June 22-July 22). Disappointment isn't an appointment worth keeping. The way to avoid it is to set your expectations well. This takes both awareness and research. Who are you dealing with? What patterns exist already?

LEO (July 23-Aug. 22). Belief is the code that programs the mind. Once a thing is believed, the perceived world automatically organizes around that belief, which becomes like sheet music that the world plays its song to.

VIRGO (Aug. 23-Sept. 22). The cool lettering on an inspiring picture wants to be the truth, but the truth rarely presents in such a glamorous way. The truth is more likely to be uncomfortably blurted out, its grittiness taking nothing away from its power.

Inside every new moon, there's an opportunity to start LIBRA (Sept. 23-Oct. 23). People flock to the ocean, pay more to live near it, travel great distances to see it. Its enormity, ceaseless movement and unfathomable danger make it mesmerizing. Romantic love is mesmerizing for the same reasons.

SCORPIO (Oct. 24-Nov. 21). It's easier to be philosophical about a thing when you're the one in control of the decisions around it. When decisions are made by others that affect your world, it's action, not

philosophy, that puts things right. SAGITTARIUS (Nov. 22-Dec. 21). Whether or not you land a certain job will depend partly on luck and other circumstances, but keeping it or leveraging it into something even better will be contingent on what you give to the work.

CAPRICORN (Dec. 22-Jan. 19). People who say they need a fast answer or the offer goes away are using scarcity tactics. If you already know what you want, you don't have to be squeezed for the deal to close.

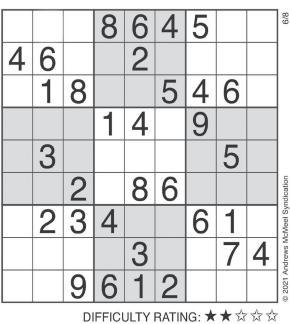

AQUARIUS (Jan. 20-Feb. 18). People are drawn together out of mutual need, and they typically drift apart when those needs either aren't met or are no longer needs. Lasting relationships depend on periodic updates and renewals.

PISCES (Feb. 19-March 20). Socializing is a dance you're good at, as you easily tune into other people's rhythms. You know when to go forward, pull back, sidestep and more. Because of this, you'll be a sought-after partner.

TODAY'S BIRTHDAY (June 9). Your cosmic birthday gift is enough restlessness to fuel a big, beautiful adventure! Emboldened by change, you'll dive into strange environments and come away with many boons and benefits. Developments in your personal life give you a sense of security. You'll be appointed to a position in 2022. Scorpio and Sagittarius adore you. Your lucky numbers are: 4, 33, 2, 40 and 15.

THURSDAY, JUNE 10, 2021 Solar Eclipse Festival

It's like a festival of cosmic events with the solar LIBRA (Sept. 23-Oct. 23). The so-called secret isn't eclipse, new moon and a conjunction of the sun to Mercury as well. With all this action in Gemini, the air positively crackles with social excitement, conversational brilliance and a sense that the group is moving forward together in fresh ways. We own the

ARIES (March 21-April 19). Keeping up a frantic pace of life can feel reassuring on some levels, as all the interaction and responsibility can pass for a sense of importance. You'll slow it down and learn something interesting about yourself.

moment; the moment is ours.

TAURUS (April 20-May 20). The dance of friendship is complex and seemingly nonsensical. Friends tell each other lies out of kindness, and they tell each other the truth out of kindness, too. These decisions will be instinctive and immediate.

look a certain way from the outside, but they may as well exist on a moon of Jupiter for all you really know about them. There's so much benefit to concerning yourself strictly with your own world today CANCER (June 22-July 22). If the only way you can

help others is silly and impractical, you just may be

GEMINI (May 21-June 21). Other people's lives may

mightily unattractive, so you may opt to protect your

looks with a "live and let live" stance.

VIRGO (Aug. 23-Sept. 22). As much as you enjoy a good story, you also prize the days like this one, where everything goes so smoothly that there is no conflict or obstacle large enough to mention.

one. It's not even hidden! And it's not costly either. The "secret" is just another accessible option that people miss because it rather unglamorously blends in. Step back. What's everyone overlooking? SCORPIO (Oct. 24-Nov. 21). It's like only one door can be opened at a time. You open a new one, and

confidence anyway because none of your current options is drastically different from the others. SAGITTARIUS (Nov. 22-Dec. 21). You have this ability to make other people feel that while they are with you, whatever the two of you are doing is preferable to

what anyone else in the world could possibly be up to.

CAPRICORN (Dec. 22-Jan. 19). Things don't have to

be high-drama to be exciting. In fact, these days, you prefer your drama to be in the world of entertainment, not in your real life. AQUARIUS (Jan. 20-Feb. 18). Your moods, behaviors, attitudes and actions will go down in history in the

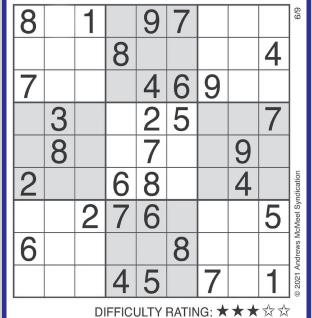

sense that others will remember what it's like to interact with you. That reputation will be part of your PISCES (Feb. 19-March 20). Life is not a test with option D, "all of the above," and today you will need

to make a definite choice. The good news is making a

decision now saves you from making an excuse later. TODAY'S BIRTHDAY (June 10). You know and expect exactly what you want. Your clarity brings about magic. Seldom does something you've wished for just sail in from out of the blue and plop right into your open hand, but that's exactly what will happen. A key relationship opens the door to new professional and financial avenues. Taurus and Cancer adore you. Your lucky numbers are: 4, 33, 35, 2 and 15.
