HOROSCOPES BY HOLIDAY MATHIS WEDNESDAY, JUNE 16, 2021 The Upside of Retrograde

� ╤ क़ 😫 🤁 🐼 क़ 🔗 **IM (7) (7)** (7)

Would you admit that sometimes the Mercury retrograde is a very convenient excuse for why things don't go according to plan? And next week, we'll also have the excuse of a Jupiter retrograde putting the squeeze on funds, so "the check is in the mail" will be echoed world-round, along with the digital version, "mv server is down.

ARIES (March 21-April 19). While it's possible that a self-sacrificing act will help a relationship, it benefits you to consider the opposite tactic as well. You'll be surprised at the improvements that come from answering the question, "What's in it for me?"

TAURUS (April 20-May 20). Ultimately, the mother of frustration is desire. Team an expectation with a time frame and suddenly the climate is perfect for desire. There are at least two immediate solutions. Let go of the desire or lengthen the time frame.

GEMINI (May 21-June 21). The duality of the twins will fascinate others. You'll be many things at once. Exhilarated yet patient; hopeful yet reasonable. You'll have trepidation and still move forward in boldness, ready for what comes.

CANCER (June 22-July 22). Thinking a thing through can happen in a flash. Carrying it out takes much longer than you anticipate, though, especially in light of the complexity of your current endeavor

LEO (July 23-Aug. 22). You have the grit that will propel you forward, regardless of obstacles. And while you would prefer to reach your destination as soon as possible, the important thing is not how long it takes but that you do it.

VIRGO (Aug. 23-Sept. 22). The golden rule will extend like a blanket of karma over your whole scene. Everything counts. Stay on the safe side. Spare feelings. Spare spiders! Practice the compassion of catch and release.

LIBRA (Sept. 23-Oct. 23). The group participation route isn't always your favorite, but your current endeavor really does require a team effort. When one person is tired and ready to give up, another will be ready to help.

SCORPIO (Oct. 24-Nov. 21). You are, in fact, in the process of change. You happen to be so deep in it that it would be impossible to see what's happening, and you don't need to. That's a job for future you.

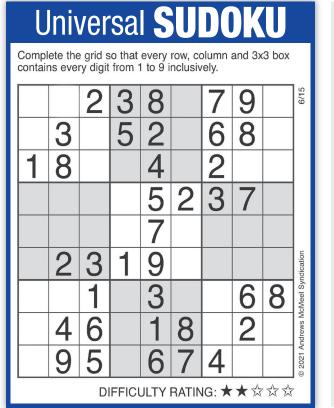

SAGITTARIUS (Nov. 22-Dec. 21). You are well aware of how everyone likes a good storyteller and that bad ones are tolerated to varying degrees. You'll make sure you're interesting to talk to, which is partly about brevity and partly just reading the room.

CAPRICORN (Dec. 22-Jan. 19). Your heart defies logic like that's it's job. For instance, the bigger your heart gets, the less worried you are about breaking

it. Love seems to provide its own kind of protection. AQUARIUS (Jan. 20-Feb. 18). Your ego likes to think it's the source of your strength and therefore it beats its chest in a display of dominance when its position is challenged. The truth is real strength has nothing to do with posturing.

PISCES (Feb. 19-March 20). Don't assume that being happy is better than being other emotional tones. The best feeling is the one that's coming up, no matter what it is. Fully feeling is fully processing, and eventually, this leads to peace.

TODAY'S BIRTHDAY (June 16). It's action time. You've already processed your situation, and now you'll move without thinking, although thousands of decisions get made below your consciousness that will ultimately land you in a sweeter place than you ever thought possible. In love, you'll shake a historic influence to embrace an improved way of operating in relationships. Scorpio and Leo adore you. Your lucky numbers are: 7, 9, 28, 40 and 11.

the Virgo moon has the following messages: To protect someone from the natural consequences of a choice will change the takeaway. In some cases, it's a good idea. Although, with most circumstances, the pain that comes with the territory is an essential part of the education.

ARIES (March 21-April 19). Nothing makes or breaks an experience like expectation. And assumption, the close cousin of expectation, outright changes your understanding of reality. This adventure goes better when you leave those kin at home.

TAURUS (April 20-May 20). A great accomplishment is earned in small gains. The steps you execute today will set you up for one of the more exceptional weekends you've had in a long while.

GEMINI (May 21-June 21). The path before you is being cleared. This isn't a lucky happening so much as payback for work you've done, relationships you've cultivated and favors you've so freely given in the past

CANCER (June 22-July 22). You'll model yourself after an admired person, aligning in superficial ways at first, and then on deeper levels such as communication style, work approach and attitude about life and relationships.

LEO (July 23-Aug. 22). Your current circle of friends, loved ones and supporters help you in every way they know, and yet what you really want and need right now is still conspicuously missing. Time to widen the circle, broaden the search.

VIRGO (Aug. 23-Sept. 22). In full knowledge that an opportunity will not be here forever, you'll soak up every bit of its deliciousness while you have it. You're a smart cookie who realizes a good thing while it's VOURS

LIBRA (Sept. 23-Oct. 23). There are ways of knowing

you lots of information now (arguably more than you're finding in the traditional ways), and the best part is that you can trust it.

SCORPIO (Oct. 24-Nov. 21). You've had your share of fickle friends who only come out to play in the sun and leave you wanting and alone in the shadows of dreary weather. This is why, no matter what comes, you show up for your own.

SAGITTARIUS (Nov. 22-Dec. 21). If what you feel is the downward tug of tethers, you'll also be presented with the option afforded by garden shears. It's so easy to build yourself up when there's nothing holding you down.

CAPRICORN (Dec. 22-Jan. 19). Once upon a time, the answers were blowing in the wind. They may still be, but since people are not outside as much, check for answers trending on social media, too. Also, call a mom, and, just to be safe, check everywhere.

AQUARIUS (Jan. 20-Feb. 18). When in doubt, diversify. Seek advice, friendship and news from different sources. Make sure you're not getting your inspiration and influence all from one place, as that's a short ride to narrow-minded mistakes.

PISCES (Feb. 19-March 20). Part of you wants to go back and reopen the old fight, check under the hood of a relationship or rehash a more dramatic bit of history. Yes, there's something juicy there, and it should be left back there, too!

TODAY'S BIRTHDAY (June 17). Though you're serious about making progress, you never lose your sense of humor – an essential part of your charismatic leadership. Qualities like loyalty and honor become increasingly relevant. Your commitment to a person or an ideal will define much of your year and in ways you'll always be proud of. Virgo and Sagittarius adore you. Your lucky numbers are: 7, 30, 21, 14 and 2.
