The sky is full of father figures. In many types of

astrology, the sun represents the father. Jupiter is the

Mack Daddy of the zodiac, and his name translates as "Sky Father." Then there's Saturn, who is sometimes

referred to as "Father Time." May all the celestial guardians conspire to help you honor the paternal

ARIES (March 21-April 19). Everyone wants to feel

special, and you have a way of making that happen

for people today. Hint: Since the nature of specialness

is exclusivity, star treatment can't happen where

TAURUS (April 20-May 20). You could receive a

thousand compliments and the only ones that would

matter would be the ones that speak to qualities you

value. You'll think of this when you carefully choose

GEMINI (May 21-June 21). You will defend an idea or

person not because there is a good chance for victory but because the entity has too few defenders and you

CANCER (June 22-July 22). Moderation, balance

and modesty are the understated qualities that don't

draw attention to themselves and yet make possible

a level of beauty and grace that cannot be achieved

LEO (July 23-Aug. 22). What's most needed today is patience. Patience gets overlooked among more

glamorous virtues but is the secret weapon of the

spiritually, emotionally and financially wealthy. Seeing

VIRGO (Aug. 23-Sept. 22). You are developing an

entire catalogue of ways to interact with someone:

words that mean something specific to the two of you,

gestures and behaviors that reinforce your bond - all

things pay off in the long term will inspire you.

don't even need wages. They just need their working orders in some semblance of prayer form. SCORPIO (Oct. 24-Nov. 21). Like the birds, you will

sense the most auspicious altitude for your proverbial flight. If you sail too high, you will be faced with problems of pressure and heat and be too far up for anyone to hear your song. SAGITTARIUS (Nov. 22-Dec. 21). The idea that rolled

out in full regalia and seduced you with its glamor has now become a difficult endeavor requiring stamina, which you'll find that you have plenty of if you keep the original vision in your mind's eve. CAPRICORN (Dec. 22-Jan. 19). "That's so me," you say as you show up in a certain way. And yet, what

would happen if you were to remove the notion of "me" from today's presentation? Would it liberate you, make you uncomfortable or both? AQUARIUS (Jan. 20-Feb. 18). As you chase your goal, you are like the hunter pursuing game. Neither

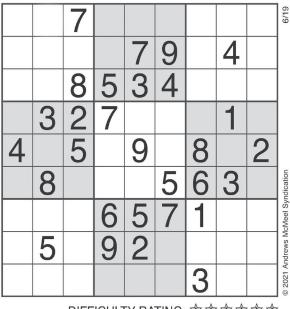

of you has a set path. One follows the impulse "away," and the other goes "toward," and the rest depends on who is faster. PISCES (Feb. 19-March 20). You feel that in some

ways you are suspended between worlds and unable to enter either. At least you are not the only one. To walk the Earth while mentally ascending to unreachable realms is the human condition. TODAY'S BIRTHDAY (June 20). This birthday

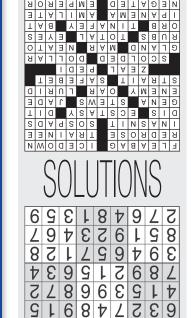

represents a level of maturity that allows for a host of fresh options. No longer concerned with immediate victories, you settle into a groove that can't help but trend you toward impressive goals. Style choices become habits and ultimately lifestyles that keep you vital and beautiful. Virgo and Capricorn adore you. Your lucky numbers are: 1, 4, 44, 20 and 15.

**♥♥♥♥♥♥♥₽₽₽** day of Mercury's retrograde, the best position is one of having nothing to prove and no one to prove it to. An ego can dissolve to the point of being merely a suggestion. From that humble place, we are not as

can see what is needed of us. ARIES (March 21-April 19). No one likes to work with substandard tools, and to feel cornered into doing so under pressurized circumstances is even worse. Yet,

distracted by gratification and self-importance, so we

this is exactly the recipe for today's magic. TAURUS (April 20-May 20). To practice peace is to feel a kinship with the people next to you even when they do not believe as you do. This requires getting to common ground, which takes creative thinking, one of your many talents.

GEMINI (May 21-June 21). It's nice when everyone gets along, but nice circumstances seldom bring out the best in people. So when the energy is harmonious, enjoy it. And when it's not, you'll seize the chance to

CANCER (June 22-July 22). Today's work doesn't have to be in your wheelhouse to be worthy of you. You can find fulfillment doing something very boring as long as you know how it's helping. To mingle as you do with the spirit of generosity is to be lifted.

LEO (July 23-Aug. 22). The very same ideology that once gave you a much-needed sense of structure and a helpful viewfinder for the world will one day seem outdated, limiting and perhaps even untrue. Ideologies age out; mystery is ageless.

VIRGO (Aug. 23-Sept. 22). So much is possible for those who are willing to look stupid. Included among the spoils for the social and professional risk-takers is the possibility for friendship, love, profit and advancement.

On the first full day of the Cancer sun and the last full LIBRA (Sept. 23-Oct. 23). You may as well make yourself comfortable, because the space between wanting and getting could be quite long. Occupy yourself in some way to lessen the tension of anticipation.

> can steer and endeavors that will steer you. You'll be led by things like ingredients, tools and materials that seem to dictate to you how they want to be used. SAGITTARIUS (Nov. 22-Dec. 21). The theoretical physicist wants to know: Do we exist in time, or does

> SCORPIO (Oct. 24-Nov. 21). There are endeavors you

time exist in us? You would pose the same question about love today, as you feel you are swimming in it even as it flows from you. CAPRICORN (Dec. 22-Jan. 19). You'll be gathering intelligence, which is the first step on any large project

and the step that tells you whether an endeavor is

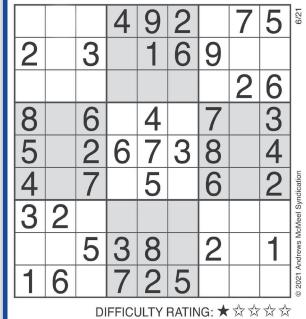

worth taking on in the first place. AQUARIUS (Jan. 20-Feb. 18). The weak will bring down the strong in the manner of babies and puppies who melt hearts with their cuteness, a defense that comes straight from heaven, and usually with a

ticking clock. PISCES (Feb. 19-March 20). If you're making mistakes, it's because you're making decisions. Give vourself credit for being in the flow, for it's not for the faint of heart. And don't worry; the fumbles are minor, and they come with the territory.

TODAY'S BIRTHDAY (June 21). Projects take you through peaks and valleys, and you'll enjoy external expressions of potency like financial validation and awards, though you'll also recognize that they were never the goal. You're growing into real power with a legacy of teamwork and relationships aimed at bringing up the level for a whole group. Sagittarius and Aquarius adore you. Your lucky numbers are: 29, 30, 1, 14 and 37.
