HOROSCOPES BY HOLIDAY MATHIS

FRIDAY, APRIL 1, 2022 Happy New Year

Happy New Year! No, that's not an April Fool's joke. Many ancient cultures celebrated the start of the new year on or around April 1, which closely follows the vernal equinox. The new Aries moon adds delightful immaturity to the merry mix of foolish pranks.

ARIES (March 21-April 19). Your power won't grow from shunning the parts of you that you don't like, but from integrating all parts of you and accepting the polarities: good and bad, strong and weak, yin and yang.

TAURUS (April 20-May 20). From the outside it may seem that everyone on the inside gets along famously, but groups are more typically held together

by tension than by harmony. GEMINI (May 21-June 21). You might think that people who are a little like you will follow the same lines of thought, but they won't. Your mind is more unique than you know. No one is you; don't forget it. CANCER (June 22-July 22). It's not that you have some burning piece of information to share, it's just that sharing anything is so important right now. Satisfy your craving to connect.

LEO (July 23-Aug. 22). Attractions aren't always mutual, and even when they are it's not always so easy to make the connection. When it happens, it's something to celebrate.

VIRGO (Aug. 23-Sept. 22). You see the opportunity in a situation but you're not an opportunist because what you notice is the opportunity to give, to help and to take an action that will raise everyone up.

LIBRA (Sept. 23-Oct. 23). People appreciate what you do for them, and it feels good to be around people who don't take you for granted. Just know that you are also loved, not for what you do, but just for SCORPIO (Oct. 24-Nov. 21). You're sensitive to the energetic reality around you. You feel the shadows and either do something to lighten them or avoid them altogether. Be spiritually generous, but

also know your limits. SAGITTARIUS (Nov. 22-Dec. 21). Negativity can be literally cleared away as you clean the environment. You'll be amazed at how much better you feel when everything is in its place and the surfaces are cleaned.

CAPRICORN (Dec. 22-Jan. 19). Just as the wind moves stagnant energy outside, new influences move the stagnant energy of the mind. Reading, conversation and intellectual experiences are key to optimal health.

AQUARIUS (Jan. 20-Feb. 18). Someone is thinking of you and in just the way you would most prefer. This is no accident; rather, you've shown people how you like to be treated and they've done as you wanted.

PISCES (Feb. 19-March 20). You've wanted something for a long time. The way to get it is to stop trying. Change the focus for a while. Do other things that delight you. Take yourself out of the normal setting so there's no choice but to deal with elements unknown

TODAY'S BIRTHDAY (April 1). You give yourself more space and more grace this year. You let yourself have plenty of time to do what you want. You are kind to yourself inside your head, allowing for the mistakes that are a natural part of being human. A seemingly counterintuitive approach will solve a problem. Libra and Gemini adore you. Your lucky numbers are: 2, 14, 28, 31 and 18.

everything at once; rather, they are switching quickly between tasks and there's waste in the transition. Pay attention to one issue at a time. It's sweeter on the brain as the sun and Mercury meet up in highintensity Aries. It's also easier on the people you are working closely with.

ARIES (March 21-April 19). What people say they want isn't what they really want. It's not because they are lying; it's because they don't know themselves as well as they think they do. To know yourself, look at vour unquarded, unwatched behaviors. TAURUS (April 20-May 20). People can be like

wallpaper in a design catalog: the same patterns repeating page after page. Maybe the colors change, the scale is different, but at some point, you know what you can expect when you turn the page. GEMINI (May 21-June 21). One person may spark

your good mood. You'll keep the flames alive even

after this person has left. The love around you will not

be an abstract concept, but a reality you can feel. CANCER (June 22-July 22). You'll be tempted to reveal your heart. What happens next is a defining moment. Will you be strategic or messy? You cannot make a mistake either way -- it's just a matter of style. LEO (July 23-Aug. 22). You don't need to work so hard for what you want because it's there for the asking. Just ask! That will be hard enough at first, but

VIRGO (Aug. 23-Sept. 22). Intensity is up and a strong sense of urgency has you in a flurry of productivity. Much will be accomplished. It's a good day to put an idea to the test. You won't have to ask too many questions to get to the truth.

it gets easier with practice.

Multitasking is a myth. The multitasker isn't doing LIBRA (Sept. 23-Oct. 23). Origami artists and physicists agree that the essence of life is folding. Things crease and collapse onto one another, forming new shapes. From DNA to paper to the social fabric, much will change today with a deliberate fold.

SCORPIO (Oct. 24-Nov. 21). Give yourself the time and space to do what you want to do. It sounds simple enough, and yet it hasn't happened in a while. Why? You'll unravel the puzzle and give yourself some SAGITTARIUS (Nov. 22-Dec. 21). You can like

enriched by those who are very different from you. CAPRICORN (Dec. 22-Jan. 19). There will be a mutual attraction between you and the subject that fascinates you. You need more of the subject and the subject needs more of you. Consider taking a class.

AQUARIUS (Jan. 20-Feb. 18). Reading is not a

someone without having to be like that person. Today

highlights your ability to relate, empathize and be

tangent or indulgence, though it sometimes feels that way. You'll absorb what you read. Your knowledge of people and command of language will increase your power and influence. PISCES (Feb. 19-March 20). Some relationships are built on insecurity and fraught with drama. It

doesn't make them worthless though -- intensely

imperfect situations have much to teach. TODAY'S BIRTHDAY (April 2). You know what it's like to be lost, so you appreciate the value of this year's cosmic birthday gift: strong conviction that carries you to a worthy purpose. Focused and productive, you'll ultimately be paid to inspire and teach others. Family will uplift and show up for one another in times of need and, more often, in times of celebration. Taurus and Leo adore you. Your lucky numbers are: 9, 30, 2,
