HOROSCOPES BY HOLIDAY MATHIS WEDNESDAY, MAY 4, 2022 Lunar Negativity Bias

�╤ख़ॗॖॖॖॖॖॖॖॖॖॖॖॖॖॖॖॖॖ

Lunar squares abound, the cosmic strife throwing focus on unwanted thoughts and feelings. Negativity bias is a fact of human survival that has kept humans safe through the ages. Even so, we would often do better to focus on what it is we do want and keep reminding ourselves of it often. Tell yourself what to think and follow through.

ARIES (March 21-April 19). Respect is one of those things that has to be given before it is received. Following the rules and customs will be easy when you know what they are, and tricky in foreign situations. Go deftly into learning

TAURUS (April 20-May 20). What you pay attention to will love you back today. Consider turning some of your focus inward. Attention to your deeper feelings and subconscious layers will repay you in resounding fulfillment.

GEMINI (May 21-June 21). Relationships will be eventful in both good and bad ways, but when they are built from the heart, whatever happens, love will be the constant -- a rhythm uncomplicated, consistent and enduring.

CANCER (June 22-July 22). The way you see things may not match up with how others do, and that only makes it even more important that you capture memories in your own way. Your point of view is vital to the big picture.

LEO (July 23-Aug. 22). Looping thoughts lead nowhere. Order them into a mental arrow instead. This is best done with action. Look straight ahead and shoot yourself into the future. It's awaiting you! VIRGO (Aug. 23-Sept. 22). There are those who have a cause and those who have a plight. You could help in either case. Those with a cause will pay the help forward. Those with a plight will continue to require the same help indefinitely

LIBRA (Sept. 23-Oct. 23). Small changes throw off your plans. You'd rather the changes were big instead! If things aren't going to go the way you imagined, you'd rather be very surprised than mildly annoyed.

SCORPIO (Oct. 24-Nov. 21). Those who are highly motivated by the last hours of a deadline (which is a nice way of saying "procrastinators") will get just the inspiration (push) they need to finish strong (or at all!).

SAGITTARIUS (Nov. 22-Dec. 21). Style doesn't necessarily cost money, though it does take creativity and effort. Put in the time to learn what works for you. You love how good style makes you feel and how people react to you as a result.

CAPRICORN (Dec. 22-Jan. 19). Into every relationship, little rain must fall. Conflict is normal, and when done right, working out differences will bring people closer together. Lead with compassion and you won't go wrong.

AQUARIUS (Jan. 20-Feb. 18). Saying "I love you" doesn't always occur to you, but when it does, don't hesitate. Someone needs to hear the words and feel that they are valued for just being themselves.

PISCES (Feb. 19-March 20). Appearances lie. People who seem like they should be happy often aren't. You'll see past the exterior and connect with how people are really feeling instead of projecting onto them what you think they should be feeling.

TODAY'S BIRTHDAY (May 4). You're the novelist of your life. You'll center your plot around a beautiful event this year. A perfectly imperfect relationship dances through your days. Tenacity is the quality that influences your work life. The payoff that comes at the end of an arduous journey will be strong indeed! Young people study you; older people hire you. Virgo and Leo adore you. Your lucky numbers are: 1, 4, 49, 13 and 27.

this day of remembrance for the time a Mexican army was outnumbered yet prevailed with the victory in the Battle of Puebla of 1862. In the United States, the 5th of May is an opportunity to celebrate Mexican culture and heritage, in this case, under a patriotic Cancer moon.

ARIES (March 21-April 19). The longer a story is, the more entertaining it should be. Humor helps, but the most important thing of all is to read the room. A good match of message to audience can be a game changer. TAURUS (April 20-May 20). Choose and then let go of the other options. This is the way of power and grace. Regret, rumination, comparison and the like are habits of weakness. Rule out these disempowering options.

GEMINI (May 21-June 21). Gentle forces will outlast volatile ones because intensity is hard to sustain. Fires die. Volcanos expire. Tornados disperse. For millions of years the placid lake remains.

CANCER (June 22-July 22). The interaction you've been worried about will come together beautifully and you'll have a sense of satisfaction akin to flipping an omelet at the exact right moment.

LEO (July 23-Aug. 22). Solar circles and social circles both run on principles of attraction. Usually, you follow your instincts on such matters, but today your conscious awareness of what some people like will also play into the decision-making

VIRGO (Aug. 23-Sept. 22). To lay your heart on the line would normally require courage, though today it just requires math; the potential gain from expressing your feelings is worth the risk.

The sun forms a conjunction with rebellious Uranus on LIBRA (Sept. 23-Oct. 23). Just when you think your hard work is going unappreciated, praise and appreciation will come from unexpected directions. This is the start of a trend!

SCORPIO (Oct. 24-Nov. 21). Any work you do to wrangle and order your scattered thoughts will contribute to your success. Tell yourself what you're going to think about, write it down, and then keep reminding yourself to stay on track with that line of thought.

SAGITTARIUS (Nov. 22-Dec. 21). More than anyone else in the entire world, you know what it's like to be you. Use this to guide key decisions. As for the others, it will be fine to let them figure out what's right for themselves.

CAPRICORN (Dec. 22-Jan. 19). The point of putting some of life on autopilot is to conserve energy for what you'd love to give your attention to. You'll be transferring more habits to the no-think zone as you ready yourself for something big and juicy.

AQUARIUS (Jan. 20-Feb. 18). Whenever you put yourself or your work on the line, you risk rejection. Ultimately, this is the risk that will make you see yourself better. And seeing yourself allows you to align with the needs of those around you.

PISCES (Feb. 19-March 20). Many limitations are illusions, and you must alter your perception to see your way past, through or around them. Keep trying to see it different ways. Get close, back off, go cockeyed... you'll find it eventually.

TODAY'S BIRTHDAY (May 5). When you commit to love, the decision doesn't feel heavy or confining. Instead, playful levity, imagination and possibility rule your interactions. Work gets easier because you learn who you can trust. You're also excellent at coming up with systems. The trick is in re-investing well. A mentor will help! Leo and Sagittarius adore you. Your lucky numbers are: 9, 30, 1, 11 and 28.
