**About Public Notices**

**Public notices** inform citizens about the activities of government bodies — such as budgets and public hearings, upcoming meetings and elections — so that citizens can make their opinions known before an action is taken or a rule or law is made. They also include information about foreclosures, unclaimed and forfeited property, estate claims and probate notices, summons, and calls for bids.  
**The four characteristics** of public notices:  
• They must be published by an independent and neutral third party,  
• They must be archived,  
• They must be accessible to the public,  
• The public must be able to verify that the notice was not altered once published.  
**Newspapers** provide an independent and archived record of public notices, accessible in print and online, and provide affidavits of publication when requested.  
**Public notices** in newspapers protect the right of due process as guaranteed to Americans by the Constitution.
