

Serving the Community and Saving Lives in Morrow County

MCHD ambulance services respond quickly, efficiently and expertly

For nearly three decades, the Morrow County Health District (MCHD) has been saving lives and serving the people of Morrow County as the county's sole provider of ambulance services. MCHD's paid professionals deliver life-saving services efficiently and effectively. The district's ambulance response times are within minutes and well within protocols.

Whether it's a life-saving emergency or a transfer, residents and visitors in our county can take comfort in the fact that, should an emergency arise, the best help is on the way.

HERE'S HOW WE DO IT

MCHD EMS has seven ambulances covering Morrow County and dispatches from Boardman, Irrigon, Heppner and Lone, with a Quick Response Team in Lexington.

MCHD ambulances respond quickly. In May 2022:

- **Boardman:** en route less than 1 minute after dispatch; on scene in under 4.
- **Irrigon:** en route less than 6 minutes after dispatch; on scene in under 9.
- **Heppner:** en route less than 6 minutes after dispatch; on scene in under 13.

In case of multiple emergency calls, **we dispatch ambulances and personnel efficiently** from all locations to ensure coverage is available.

In rare circumstances where more personnel are needed, **MCHD EMS can request assistance** from another agency.

Our EMS Advisory Committee **ensures high-quality services** by monitoring response times, reviewing calls, ensuring proper training and equipment and recommending service improvements.

Our new model, which will **improve response times even more**, will have two EMS personnel on shift at each location for 12-hour shifts and 24-7 staffing.
